

February 1, 2016 Plan Alternatives Workshop

EXIT SURVEYS (Transcribed)

Of the many ideas you heard or seen so far, which ones seem the most exciting to you?

- Preserving historic smaller buildings and still increasing density
- Bringing back the Arts (& Culture) Commission!!
- The “Walkability” efforts + greening via trees of city streets

Do you have any technical questions for the planning team to consider?

- How is building USE considered as a part of the Downtown Plan?
- Why is the Historic Neighborhoods do folusive in these presentations?
- Is demising existing buildings being encouraged?
- What is the plan for the hundreds of homeless population on our streets?
- What about the mental health issues that have often left untreated patients in the streets?
- Left unaddressed, it will impact the attractive buildings and walkways sadly displaying on disenfranchised and distinctive citizens. They need to be remembered in any plans - the space will be impacted with or without such plans.

What additional questions/suggestions do you have?

- A new anchor / main branch library is sadly needed.
