I'm concerned about the need for transitional and long term housing to serve high risk/at risk youth - particularly survivors/victims of CSEC (commercial sexually exploited children) and "sober living environments" that serve the population who wish to live in a clean & sober environment. - do we have any?

→ Please develop vacant land for housing throughout the City - not just in East Oakland

My concern as ~~A~~ citizen of OAKLAND IS
around the ~~outreach~~ outreach and method for input
the notice of these meetings should HAVE come
SOONER. I find it impossible to make decisions -
on if the ~~is~~ information is not available in a timely
manner. In addition - surveys should not be electronic.
and expected automatic feed back in a meeting.

The Process is problematic. The community voice
is not part of this process.

~~Dave~~

~~I disagree with what Dave~~

Hi,

I agree that \$ be spend on International Blvd & San Pablo improvement because ~~the~~ they are ~~key~~ gateway property.

I ~~disagree with~~ think ^{right} below 580 District 7 should be included in HUD \$ money because that's an area with 20-30% section of housing. There's a ~~lot~~ ^{lack} of public facilities like libraries, senior centers or community rooms or recreation parks for the general public.
