**Today we thank the Court for naming a Compliance Director. We look forward to working collaboratively with former Baltimore Police Commissioner Thomas C. Frazier.**

**The City has a successful and recent track record working with Mr. Frazier and achieving desired results. He and his firm worked on a report about the crowd control and police tactics the City used during the Oct. 25, 2011 Occupy Oakland protest. The City worked quickly to implement Mr. Frazier's recommendations for change in the department.**

**We believe we can work well in collaboration with Mr. Frazier to accelerate our efforts to reach full compliance with the outstanding reform tasks. Everyone involved in this case is working toward the same goals: enhanced constitutional policing and strengthened relationships between our police and our communities.**
