NOFA APPLICATION INSTRUCTIONS (See Separate Table of Contents)

City of Oakland Housing Development Financing Program

September 10, 2013

NOTICE OF FUNDING AVAILABILITY

On behalf of the City of Oakland, the Department of Housing and Community Development (HCD) is pleased to announce that it is accepting loan applications for affordable rental and ownership housing development.

It is anticipated that approximately three to five million dollars (\$3,000,000 to \$5,000,000) will be available in total to award through this NOFA and for the NOFA for Preservation and Rehabilitation of Affordable Housing, including HOME and other City funds.

Applicants are advised that projects should be structured to be eligible for HOME funding.

City loans are provided for substantial rehabilitation or new construction of affordable rental, homeownership, and supportive housing projects and are intended to fill the gap between development costs and financing available from private and other public sources. Applicants are expected to pursue financing from all available sources. Applicants are encouraged to contact HCD's Housing Development Unit with questions regarding program requirements and the application process.

A **NOFA for Preservation and Rehabilitation of Existing Affordable Rental Housing** is also being released by the City of Oakland. The Preservation and Rehabilitation NOFA is intended to facilitate emergency repairs and capital improvements to strengthen the financial and physical condition of existing affordable rental housing regulated by the City of Oakland.

The City will take the following priorities into account for the 2013-14 NOFA process:

- The preservation of the City of Oakland's affordable housing stock.
- Funding of returning affordable housing projects that were previously funded in prior NOFA rounds.
- The creation of affordable homeownership developments.
- The creation of new affordable rental housing developments.

NOFA PROCESS AND TIMELINE

Applications must be received at HCD's office located at 250 Frank Ogawa Plaza, Suite 5313, no later than 4:00 p.m. on Thursday, November 7th, 2013. Applications submitted after this deadline will not be accepted.

Each sponsor will be permitted to submit one project application for this NOFA. (This does not include applications submitted in response to the NOFA for Preservation and Rehabilitation). Projects requesting additional funds count as part of this cap.

Applicants are strongly encouraged to attend a NOFA pre-application meeting to be held on Wednesday, September 18th at 3:00 p.m. at City Hall, Hearing Room 3. Planning staff will explain CEQA and NEPA requirements, the City's required employment and contracting programs will be presented, the Oakland Housing Authority will be present to answer questions about Section 8 Project-Based Voucher Assistance, and applicants will have an opportunity to ask questions about the NOFA.

Applicants should review the entire NOFA package, as the application includes a certification that they will comply with all requirements. Prior to the application deadline, please check the Housing and Community Development website regularly for any updates, corrections, or posted questions and answers regarding this NOFA at <http://www.oaklandnet.com/hcd/>.

Applicants must submit:

- **One original** of a complete Application for Housing Development Financing with all required supporting materials.
- Applications should be in three-ring binders of good quality and appropriate size, with numbered dividers that correspond with the Housing Development Financing Application Checklist.
- To reduce the size of applications, large application exhibits (Appraisal, Phase I, etc) should be double-sided. Please do not include full copies of Environmental Impact Reports (EIRs) or all of the backup documentation on Phase I reports (these may be requested later if needed). Cover pages for application exhibits (other than the numbered divider tabs) are not needed.
- The Checklist should be used as the Table of Contents for the application.
- **Some materials must be submitted electronically.** These forms/templates may be obtained from HCD upon request via email to ddownton@oaklandnet.com or downloaded from the City's website at <http://www.oaklandnet.com/hcd/>.

Once the staff review is complete a staff report will be prepared for presentation, first to the City Council's Community and Economic Development Committee and then the full City Council. The approval of the staff report and authorizing resolutions will take a minimum of five to seven weeks from the time the report is drafted. Final funding approval by the City Council is expected in early March, 2014.

Once a loan is approved, staff will draft loan documents for review by the developer and the City Attorney. All items required at this stage must be submitted and approved by the City before the loan can close. Construction may not start until all required items have been received and approved, and the City has issued a Notice to Proceed.

STEPS PRIOR TO APPLICATION

Zoning Compliance: Applicants must receive confirmation of the current land use designations for the project site from the City's Zoning Division. Request for the required "Zoning Summary" letter is required no later than **Monday, October 14th**. For more information, see Planning and Zoning information in the *Program Description* and *Application Instructions* sections.

Pre-Application Meeting: Applicants are strongly encouraged to attend a NOFA pre-application meeting to be held on **Wednesday, September 18th at 3:00 p.m.** at City Hall, Hearing Room 3.

Environmental Review: If you are seeking readiness points for the first round of tax credits, please notify staff and start the NEPA process early. You should assume that, if funded, your project will receive HOME funds and therefore will require NEPA review.

California Environmental Quality Act (CEQA) review must also be completed before a project's funding commitment can be finalized; see the *Program Description, Environmental Review and Assessment*, for more information. Staff expects to go to Council with funding recommendations in March, 2014, and CEQA clearance must be completed by that time.

Choice-Limiting Actions are prohibited prior to NEPA review: Applicants must refrain from undertaking activities, including acquisition, that would have an adverse environmental impact or would otherwise limit the choice of reasonable alternatives between the time of application submittal and when the City has completed its environmental review process. Failure to comply with this requirement may result in cancellation of funding commitments. If the applicant has entered into a purchase agreement or other contract prior to applying for NOFA funds, the actions pursuant to that contract are allowed prior to completion of the NEPA review. But that contract may not be amended or new contracts entered into.

Applications become public records: Applicants should understand that, under the California Public Records Act and the City's Sunshine Ordinance, all documents that they submit in response to this NOFA are considered public records and will be made available to the public upon request following the application deadline.

The City reserves the right to suspend, amend or modify the provisions of this NOFA, to reject all proposals, to negotiate modifications of proposals, or to award less than the full amount of funding available.

The City of Oakland is an Equal Housing Opportunity and Accessible Housing provider.

CHANGES AND NEW REQUIREMENTS IN THE 2013 NOFA

The following summarizes significant changes in this year's NOFA. This is not an exhaustive list of all changes. Please make sure to completely review the NOFA.

- 1. HOME Program Changes:** The Department of Housing and Urban Development (HUD) published a Final Rule in the Federal Register on July 24, 2013 to amend the HOME Investment Partnerships (HOME) Program regulations. Applicants should be aware of changes made to HOME program requirements through passage of this Final Rule. A summary of some changes for projects assisted with HOME funds that may be relevant to applicants include:
 - Projects must complete construction within four years of signing a written agreement with the City for the HOME funds.
 - Rental units must be occupied within 18 months of project completion.
 - A market study for the project must be reviewed and approved by the City of Oakland prior to loan closing. Please see more details of what will be required in the NOFA.
 - For homeownership projects, any unit that does not have an executed purchase contract with an eligible homebuyer within nine months of construction completion must be converted to a HOME rental unit that complies with all HOME requirements.
 - For HOME funded CHDO projects, CHDOs are required to have staff with demonstrated development experience. These staff must be employees of the organization, not contractors, consultants, board members, or volunteers.

More information about the new HOME requirements can be found at:

<https://www.onecpd.info/home/home-final-rule/>. Please be advised that due to the recent release of the HOME Final Rule, all of the new requirements may not yet be reflected in this NOFA.

- 2. Application Cap:** Sponsors are allowed to submit only one (1) application under this NOFA. Please provide information on your application form if you would have submitted additional applications if it weren't for this limit.
- 3. Oakland Housing Authority Section 8 Project-Based Voucher Assistance:** Due to federal funding cuts and sequestration, the availability of Project-Based Voucher (PBV) from the Oakland Housing Authority (OHA) is uncertain. Sponsors are requested to submit their applications and project budgets assuming no Section 8 PBV assistance will be available. If PBV becomes available and the project receives a PBV award and is able to leverage additional funds after City funding is committed, the City funding award may be reduced. Please see the NOFA and attend the scheduled pre-application meeting for more information.

4. Notable Scoring Changes:

- Geographic Equity: Increased from 6 to 7 points. Only projects located in low poverty census tracts can receive points. Points are no longer awarded for projects located in a moderate poverty census tract.
- Education Quality (new category): Family projects located in an Oakland Unified School District boundary of an elementary school with an Academic Performance Index (API) of 800 or more will receive 2 points.
- Income Targeting: Points have been reduced to 15 (previously was 20) points.
- Community Development Innovation (new category): Projects can receive up to 3 points for including an innovative community development component in the project, if documented by a written agreement.
- Sustainability: New construction projects must either receive a GreenPoint Rated OR LEED certification. Rehab projects must now be GreenPoint Rated. Rehab projects also may receive an additional point if they certify they will utilize the Multifamily component of Energy Upgrade California.

5. **Evidence of Demand – Additions to Application Exhibit:** In addition to rent or sales price comparables, applicants must also submit an expanded narrative explaining how the proposed project will meet a market demand in Oakland.

6. **Affordable Homeownership Development Program – Maximum Affordable Sales Prices:** Instead of publishing the Maximum Affordable Sales Prices in the NOFA, the City will now provide guidelines and assumptions for calculating the prices, but allow sponsors to present their own calculated prices. Sponsors must submit a worksheet demonstrating how their Maximum Affordable Sales Prices were calculated, and must explain and justify assumptions that vary from the City’s guidelines. A sample worksheet is provided in the Budget Spreadsheets for homeownership projects.

7. **Project Area Committees:** Due to the dissolution of the Oakland Redevelopment Agency, the Project Area Committees (PACs) were also discontinued. Therefore PAC presentations are no longer required. Sponsors must still present their project to at least one neighborhood group, per the Community Outreach requirements of the NOFA.

8. **Contract Compliance Programs:** Due to changes in the City’s contracting programs enacted in the last few years, it is recommended that sponsors who receive City funding awards meet with Contract Compliance staff early in the predevelopment process to ensure a full understanding of how the project may meet the requirements.

SCORING CRITERIA

Complete applications will be scored in the following categories. Maximum points in each category are noted. The discussion following contains a more detailed description of the criteria. Some categories are not applicable for certain types of projects. As a result, scores are calculated as the percentage of points attained out of the total points possible for each project type. Please note that points will be rounded down to the nearest ½ point. Projects scoring less than 50% of possible points are unlikely to be awarded funding. **In all cases, points are awarded for exceeding, rather than meeting, the threshold requirements for the category.** See Discussion for further information.

	<i>Rental</i>	<i>Owner</i>	<i>Self Score</i>

Total Possible Points	125	105	

DISCUSSION – SCORING CRITERIA

I. Financial Characteristics (20 points)

A. Leveraging: Degree that subsidy requested is below 40% (rental projects) or 50% (ownership projects) of total development cost for assisted units (12 points).

- *Rental Projects*: One point will be awarded for each two percentage points below 40% of total development cost.
- *Ownership Projects*: One point will be awarded for each one percentage point below 50% of total development cost.
- All funds from the City for the residential portion of the project are considered as part of the subsidy. For rehabilitation projects previously funded by the City, existing City and other financing will be taken into account in this calculation (see *Program Description, Financing Guidelines* for more information).

B. Funding Commitments: Degree to which outside funding has been committed (8 points).

- Points will be given based on non-City financing currently committed to the project, as follows:
 - a. Up to 5 points will be awarded for each commitment of construction and permanent soft loans, grants, or tax credit financing of \$500,000 or more (e.g. TCAC, TOD/Infill, AHP, Oakland Housing Authority);
 - b. Up to 3 points will be awarded for a commitment of construction or permanent hard debt mortgage financing of \$500,000 or more. **To receive points, commitment letters from private sources must not require subordination of the City Regulatory or Affordability Agreement;**
 - c. Up to 2 points will be awarded for each commitment of predevelopment or acquisition bridge loans of \$100,000 or more;
 - d. Up to 2 points will be awarded for other grant or soft loans of less than \$500,000.
- Other previously committed City funds, developer equity, homebuyer sales proceeds, or deferred developer fee will not be counted for points.
- Enforceable funding commitments must be provided to receive points. Letters of Interest are not sufficient.
- **Enforceable loan commitments from private financing sources that require subordination of the City Regulatory Agreement, Affordability Agreement, or Resale Restrictions will not be counted for points.**

II. Location (24 points)

A. Geographic Equity (7 points, not applicable for rehabilitation of existing affordable housing).

Rental Projects:

- 7 points will be awarded for rental projects located in low-poverty census tracts, as listed in Addendum #6 *Areas of Low and High Concentration of Poverty*.

Ownership Projects:

- 7 points will be awarded for ownership projects located in census tracts with homeownership rates below the City average (42.4%), as shown in Addendum #7 *Census Tracts with Homeownership Rates Below the City Average*

B. Educational Quality (2 points, not applicable for 100% senior or special needs properties not targeted to families)

- 2 points will be awarded if the project is located within the assigned neighborhood boundaries of an Oakland Unified School District public elementary school with an Academic Performance Index (API) of 800 or above.
- Use the Oakland Unified School District's school finder tool to identify which elementary school boundary the project is in <http://www.ousd.k12.ca.us/domain/51> and provide this information on the application form.

C. Neighborhood Revitalization (8 points).

- Points will be awarded to projects which include or combine the following, as evidenced in the Neighborhood Narrative and Revitalization Description of the Application.
 - a. Are consistent with an existing or in-progress neighborhood-specific revitalization plan which was developed with community participation (other than a Redevelopment Plan);
 - b. Are on a major thoroughfare that transverses residential communities and is in need of infill housing due to the decline of local retail and/or commercial uses;
 - c. Contribute to an existing or planned pattern of targeted redevelopment (housing or commercial development, streetscape improvements, etc.) occurring within 1/4 mile of the project site;
 - d. Substantially rehabilitates (or demolishes, if justified) an existing property with code enforcement problems and that constitutes a neighborhood nuisance or blight, or develops on an underutilized brownfield site;

D. Proximity to public transportation (5 points).

- Full points require a project location within ¼ mile of multiple bus lines and a BART station.
- Up to 2 points will be awarded for a project location within ¼ mile of multiple bus lines, including at least one with direct connection to BART.

E. Proximity to grocery or drug store (2 points).

- A project location within ¼ mile of a full-service grocery store (where staples, fresh meat, and fresh produce are sold) or drug store will score full points.
- A project location within ½ mile will score 1 point.

III. Target Population (33 points rental, 24 points ownership)

A. Income Targeting: (15 points rental, 12 points ownership)

Rental Projects: Points are awarded for rental projects providing more very-low income rental units than the threshold requirement that 15% of units have rents no more than 30% of 30% of AMI.

- One point will be awarded for each additional full one-percent of affordable units with restricted rents at or below 30% of 30% of AMI.
- To score points for units with Project Based Section 8 or other rental subsidy contracts, those units must be kept affordable at or below 30% of AMI for the full 55-year loan term, regardless of whether the rental subsidy contract is renewed.

Ownership Projects: Points are awarded for ownership projects providing units for households earning less than 80% of AMI (all projects are required to have an average affordability level of 100% AMI).

- One point awarded for each one full percentage point of units with affordable sales prices based on an annual housing payment of 30% of 70% of AMI (targeted to households up to 80% of AMI).

B. Unit Size: Number of larger units (5 points rental, 9 points ownership).

Points are awarded for the number of units provided with 2, 3, or more bedrooms. Family projects are required to include a threshold minimum 15% of 3+ bedroom units (if the project is a rehab, the threshold minimum is 10%, if feasible).

- ½ point will be awarded for each 20% of units that have 2 bedrooms.
- 1 point will be awarded for each additional 5% of units with 3 bedrooms or larger (above the minimum threshold).

- C. Housing for Households with Special Needs (5 points, rental projects only).
- One point awarded for each 5% of units set aside for households with special needs, up to a maximum of 5 points (see definition of Special Needs in the *Program Description*).
 - To receive points, the Resident Services Plan must demonstrate how essential supportive and social service needs of the population will be provided and funded. Providing accessible units will not in and of itself be sufficient to score points.
- D. Permanent Housing for Homeless Households (5 points, rental projects only).
- One point awarded for each 5% of permanent housing units set aside for formerly homeless families or individuals or those at risk of homelessness, up to a maximum of 5 points (see definition of Homeless and At Risk of Homelessness in the *Program Description*).
 - Units must be permanent supportive housing (not transitional) to receive points in this category.
 - To receive points in this category the owner/property manager must agree to incorporate the *EveryOne Home Property Management Guidelines* into the Management and Marketing Plans for the property (see Addendum #8, *EveryOne HOME Property Management Guidelines*).
 - To receive points, the Resident Services Plan must demonstrate how essential supportive and social service needs of the population will be provided and funded.
 - Units that received points under the "Special Needs" category above can also receive points under this category for homeless households.
- E. Community Development Innovation (3 points)
- Up to 3 points will be awarded for housing projects that integrate innovative community development proposals. Could include partnerships with schools, teen centers, libraries, community gardens, health providers, senior centers, job training centers, or other organizations that provide services to the Oakland community.
 - A Memorandum of Understanding or equivalent written agreement that explains the relationship between the housing and the community service must be provided to receive points.

IV. Developer Experience and Capacity (27 points rental, 26 points ownership)

Applicants should refer to the Addendum *Minimum Developer Qualifications* for minimum requirements to qualify for funding.

- A. Developer Experience Exceeds Minimum (10 points).
- Points are awarded for completing more than three affordable housing projects on time and within budget in the last ten years (by the Developer, not other

team members). 2 points will be awarded for each additional project completed within the last 5 years (up to 6 points).

- Points will be given for completing more than one project similar to the proposed project by the Developer within the last ten years. 2 points will be awarded for each additional similar project completed within the last 5 years (up to 4 points).
- If the developer is a joint venture, projects will be scored based on the experience of the lead developer. Where partners have approximately equal participation, the individual scores of each partner will be averaged.

B. Developer Capacity & Staffing (8 points).

- Points are awarded based on evidence that the lead staff, including the Project Manager and supervisory staff, proposed to work on the current proposal have the necessary experience and that the organization has adequate staffing capacity to undertake the project.

C. Developer Financial Strength (6 points).

- Points are awarded based on evidence that the Developer is financially sound and will be able to sustain the costs of effectively following through with the current proposal, based on review of current interim and previous years audited financial statements. Financial statement review will evaluate the organization's net assets, debt equity ratio, current assets and liabilities ratio, and other factors, using the Organizational Underwriting tool developed by Alameda County.

D. Strength of Development Team (3 points rental, 2 points ownership).

- Points are awarded based on evidence that the Development Team members (Property Manager, Attorney, Architect, Financial Consultant, etc.) exceed the minimum requirements.

V. Readiness (7 points) (not applicable for rehabilitation projects which do not require any public land use approvals)

- Maximum points are awarded for sites that have obtained discretionary public land use approvals (obtaining building permits is not necessary to score points).
- Projects that have submitted their application for planning approvals will be eligible for up to 3 points.
- Projects that have submitted an executed MOU with a service partner to provide services to residents at the property will be eligible for up to 3 points. To receive points, in addition to the MOU, the Resident Services Plan must demonstrate how essential supportive and social service needs of the population will be addressed.

VI. Preserves and Improves Existing Affordable Housing (10 points, rental only)

- Full points for projects at risk of conversion to market rate within 3 years of application submission through prepayment of a federally-insured mortgage, non-renewal of a project-based Section 8 contract, expiration of tax credits or termination of other governmental subsidies or regulatory restrictions.
- Half points will be awarded for projects at risk of conversion to market rate within 4 to 5 years of application.
- Points may also be awarded for projects that provide substantial rehabilitation to existing affordable housing, especially where units are at risk of becoming unusable. Points may be awarded only to projects that are 15 years old or more and that have not been substantially rehabilitated within 15 years. Applicants must clearly demonstrate that no other source of funds is available for this purpose and that the rehab is substantial. Projects requiring only minor rehabilitation should instead consider applying for funding through the Preservation and Rehabilitation NOFA for Existing Affordable Rental Housing.

VII. Sustainability (4 points)

- Points will be awarded to new construction projects scoring higher than 120 points on the Green Points Checklist or at the Silver or above level for LEED (see the *Application Instructions*).
- New construction projects are required to score at least the minimum points in each required category of GreenPoint Rated or LEED and must certify the project during the design and construction process according to the chosen method.

RENTAL	OWNERSHIP	Score Range for Green Point Rated	Score Range for LEED
2 points	2 points	120-159	Silver
4 points	4 points	160 and above	Gold or above

Rehabilitation Projects:

- Applicants with rehab projects are required to complete the GreenPoint Rated Multifamily Existing Home Checklist and to be certified as GreenPoint Rated.
- Points will be awarded to projects scoring higher than 65 points, per the below scoring table.

REHAB	Score Range from Green Points Existing Home Checklist
2 points	65-79
4 points	80 and above

- Rehabilitation projects that commit to participating in the Multifamily Energy Upgrade California program, will receive 1 point.

VII. Penalties for Nonperforming Previously Funded Projects (-10 points)

Within 24-months preceding a funding application, events occurring in connection with projects with City funding under the control of the sponsor will be used as the basis for penalties. Events will not result in negative points if they have been fully resolved as determined by, or to the satisfaction of the City as of the date of application.

Two points may be deducted at the City's discretion for each occurrence below with a maximum deduction of 10 points.

- Failure to properly maintain a project as determined by the City's property site inspections.
- Failure to comply with prevailing wage/Davis-Bacon, living wage, or other City contracting and employment programs.
- Unresolved defaults under any City agreement or on any agreement for a project that has City funding.
- Unjustifiable increases in City subsidy after the initial funding commitment or demonstrable failure to maximize non-City funding sources.
- Significant delays to a project schedule, as proposed in the initial application or per the schedule set forth by the City funding commitment or loan documents, that are under the control of the sponsor. Inability to meet deadlines imposed by external funding sources.
- Other significant violations of requirements of the City's housing development programs, programs of other public agencies, or agreements with private lenders (such as inadequately maintaining books and records; failure to comply with fair housing requirements; failure to achieve sustainability criteria; failure to properly certify tenant income eligibility; failure to adequately qualify prospective first-time homebuyers, etc.) that haven't been cured within a reasonable time period as determined by the City.

PROGRAM DESCRIPTION AND UNDERWRITING REQUIREMENTS

The City of Oakland (the City) provides financial assistance to developers of low and moderate income housing. These programs are administered by Oakland's Department of Housing and Community Development (HCD).

City requirements are generally consistent regardless of the original source of funding. However, for certain requirements, one source of funds may allow greater flexibility than others (e.g., Affordable Housing Trust Fund compared to HOME). Applicants should assume that federal requirements will apply. If the use of federal funds creates a significant feasibility problem, this should be explained in the application cover letter.

In addition to NOFA-offered development loans, the City operates a Predevelopment Loan Program for eligible non-profit housing development corporations. A separate application is required.

ELIGIBILITY

ELIGIBLE APPLICANTS

For-profit or non-profit corporations, individuals, general or limited partnerships, or limited liability companies with demonstrated experience and capacity in the development and management of affordable rental or ownership housing may apply. Applicants without the necessary experience must enter into joint venture agreements with experienced developers. Applicants should refer to the Addendum *Minimum Developer Qualifications* for specific requirements.

ELIGIBLE & INELIGIBLE PROJECTS, ACTIVITIES, AND COSTS

New construction and substantial rehabilitation (with or without acquisition) of rental or ownership property, including permanent supportive housing and transitional housing, intended for occupancy by lower income households are eligible. Development of emergency shelters for the homeless is not eligible. Projects must be at least 10 units in size, although in special cases, projects of less than 10 units will be considered.

Mixed use projects (containing both residential and non-residential space) are eligible. Generally, living space should make up the majority of the development. In any case, only the affordable housing portion of the project will be assisted and commercial costs need to be split out from the residential costs.

Ineligible Projects/Activities

- Public housing modernization or operations
- Emergency Homeless Shelters

Eligible Costs

- Property acquisition
- Demolition
- On-site improvements
- Off-site utility connections
- Construction costs necessary to construct or rehabilitate a non-luxury project with suitable amenities in accordance with the property standards described below
- Soft costs associated with the development and financing of the project
- Reasonable developer fees (see Addendum *Developer Fee Guidelines*)
- An initial operating reserve during the period in which the project is initially marketed (not to exceed 18 months after completion)
- Capitalized replacement reserve
- Relocation costs
- Refinancing of existing debt to eliminate operating deficits or maintain affordability, as long as the cost of refinancing does not exceed the budgeted rehabilitation costs.

Ineligible Costs/Uses

- Costs associated with construction items or materials of a luxury nature
- Furnishings (except where required for special needs projects)
- Most off-site improvements (utility connections into the adjacent street are eligible costs)
- Developer/sponsor administrative costs (other than included in the developer fee)
- Marketing events such as groundbreakings and grand openings
- Substitution of City funds for any source of funds that has been previously committed to the project, or represented to any other funding source as being available for the project, is not permitted.

AFFORDABILITY TARGETING

See Addendum, *Income, Rent, Utility Allowance, and Housing Payment Limits* for current rent and income levels. Maximum rents must be adjusted downward by an allowance for tenant-paid utilities in accordance with the effective schedule published by the Oakland Housing Authority (OHA).

The Area Median Income (AMI) range for household income is generally higher than the rent or sales price restrictions to ensure a range of household income levels are served. Rents and tenant incomes will be annually reviewed for compliance by the City's Asset Monitor.

MINIMUM AFFORDABILITY - RENTAL PROJECTS

Project Requirements

- At least twenty percent (20%) of project units must be restricted as affordable, with annual rents (less utility allowance) of no more than 30% of 60% of the Area

Median Income, as defined by HUD, and be reserved for low-income households earning less than 80% AMI.

- ♦ At least fifteen percent (15%) of the affordable units must have annual rents (less utility allowance) of no more than 30% of 30% AMI, and be reserved for very low income households earning less than 50% AMI.

HOME Restricted Units

- ♦ One hundred percent (100%) of designated HOME-assisted affordable units must have annual rents (less utility allowance) of no more than 30% of 60% AMI and be reserved for households earning no more than 60% AMI (“high HOME rent units”).
- ♦ Twenty percent (20%) of designated HOME-assisted affordable units must have annual rents (less utility allowance) of no more than 30% of 50% AMI and be reserved for households earning no more than 50% AMI (“low HOME rent units”).

City Funding in Combination with Section 8

Projects may not increase rents above the City formula rents for tenants with tenant-based rental assistance (such as Section 8 vouchers). Units with project-based rental assistance (such as project-based Section 8), however, can rent for the maximum rent allowed under the rental assistance program provided that they are rented to a very low income household and the tenant contribution to rent is no more than 30% of the household income.

Additional Information

Priority will be given to projects that exceed the threshold affordability minimums. Affordability restrictions apply for the full term of the regulatory agreement, regardless of whether another subsidy source (such as project-based Section 8 subsidy) continues to be available.

Annual Recertification of Tenant Income

Owners are required to re-examine tenant incomes annually to ensure that tenants continue to meet the income requirements of this and other applicable funding programs. Rent schedules and utility allowances, including any increases, must be reviewed and approved annually by the City. In the event that a tenant's income exceeds the applicable HUD income limits for lower income households, the tenant's rent must be increased to an amount equal to 30% of the tenant's adjusted income, less an allowance for tenant-paid utilities. Projects that are also assisted with Low Income Housing Tax Credits or other state sources such as MHP will be subject to those relevant rules regarding over-income tenants.

MINIMUM AFFORDABILITY - OWNERSHIP PROJECTS

- ♦ At least 20% of units in the project must be restricted as affordable.

- The affordable units must have an average affordability level of 100% AMI or less. For example, in a 26 unit project, 10 units could be targeted to households at 120% AMI, 10 units at 80% AMI, and 6 units at 100% AMI.
- Priority will be given to projects targeting some units to households at 80% of AMI or below.
- Households with incomes up to 120% of AMI are eligible for assisted units, *provided the average affordability level* of the affordable units is 100% of AMI or less (see example provided above).
- HOME funds, a major portion of available NOFA funds, are limited to units assisting households at less than 80% AMI.
- Affordable Sales Prices are calculated based on a formula. See Addendum, *Affordable Homeownership Development Program*, for further information including sales price assumptions to use for this NOFA.

A unit affordable to households earning less than 80% of AMI is one sold at an affordable sales price based on an annual housing cost of no more than 30% of 70% of AMI. The elements of an annual housing cost include principal, interest, taxes, hazard and private mortgage insurance, utilities, homeownership association dues, and maintenance.

A unit affordable to households earning less than 100% of AMI is one sold at an affordable sales price that is based on an annual housing cost of no more than 35% of 90% of AMI. The elements of an annual housing cost include the costs listed above.

A unit affordable to households earning less than 120% of AMI is one sold at an affordable sales price that is based on an annual housing cost of no more than 35% of 110% of AMI. The elements of an annual housing cost include the costs listed above.

FINANCING GUIDELINES

MINIMUM AND MAXIMUM LOAN AMOUNTS

- For rental projects, the maximum City loan amount is forty percent (40%) of the total residential development cost of the project's *affordable units* (those units subject to long term affordability restrictions).
- For ownership projects, the maximum City loan amount is fifty percent (50%) of the total residential development cost of the project's *affordable units* (those units subject to long term affordability restrictions).
- If applicable, the value of any City land donations will be counted as part of the maximum allowable subsidy total.
- **Please round requested loan amounts to \$1,000 increments.**
- Other sources of appropriate financing must be identified, but not necessarily committed, at the time of application. Projects will be reviewed to ensure that

only the minimum level of City subsidy needed will be provided. All other sources of funding must be committed before closing of the City loan.

- HOME-assisted units are subject to the following per unit subsidy limits

Bedrooms	Per-unit maximum
0	\$132,814
1	\$152,251
2	\$185,136
3	\$239,506
4	\$262,903

- Rehabilitation projects that don't include acquisition and that have existing City debt should include existing debt as part of the 40% calculation. In order to account for previously completed construction/rehabilitation costs and existing City debt, the below formula will be used to calculate the 40% loan limit.

$$\frac{\text{NOFA request} + \text{existing City debt}}{\text{Rehab TDC} + \text{total of all existing debt (City and other)}}$$

REASONABLE DEVELOPMENT COSTS

Projects with abnormally high costs – generally defined as being more than 15% above the median development cost per unit, per bedroom, or per square foot for similar projects – must provide justification for the costs. If staff does not approve the justification for higher costs or the revised budget the application may be deemed incomplete or the City could require a reduction in the development budget.

CONSTRUCTION CONTINGENCY

A 10% construction cost contingency for new construction projects or a 25% construction cost contingency for rehabilitation projects is required.

DEVELOPER FEE AND OTHER ALLOWABLE FEES POLICY

See Addendum, *Developer Fee and Other Allowable Fees Policy for Housing Development Projects* for a detailed breakdown of partnership, asset, incentive management fees, and other allowable fees and the developer fee disbursement schedule. Previously funded projects requesting additional funds must adhere to the Developer Fee Policy in place at the time of the original funding award.

MINIMUM EQUITY REQUIREMENTS

Profit-motivated sponsor/owners (except for limited partnerships whose general partner is a nonprofit corporation) must provide equity equal to at least 10% of total project costs. The value of the project site may be used to meet the equity requirement. If the site has been owned for more than 3 years, the equity will be calculated on the basis of the current appraised value of the property, less outstanding debt. For sites which have been owned for less than 3 years, the equity contribution will be calculated on the basis of the actual acquisition cost of the property, less outstanding debt. Equity investments generated by

syndication of tax credits or deferred developer fees will not be considered as an equity contribution.

Non-profit sponsor/owners are not required to provide equity.

GENERAL LOAN TERMS

If loan terms other than those listed below are sought for a project, this must be explicitly stated in the cover letter and a separate explanation provided in the application. Such requests are granted at the sole discretion of the City.

TIMELINE OF CITY COMMITMENTS

City financing commitments are made for 24 months from date of City Council approval. All other sources of funds must be committed within that time frame. A one-year extension can be requested with sufficient justification and are due by the NOFA deadline. Contact Housing Development staff for more information about what is required for an extension request. If the extension period elapses without the commitment of full project financing, projects will have their funding commitments revoked and must re-compete for funds through the NOFA. Further extensions will only be granted in extraordinary circumstances. The inability to meet a project schedule may also result in negative points for future NOFA applications.

Projects funded with HOME must complete construction within four years of signing a written agreement with the City.

For homeownership projects, any unit that does not have an executed purchase contract with an eligible homebuyer within nine months of construction completion must be converted to a HOME rental unit that comply with all HOME requirements.

Rental units assisted with HOME funds must be occupied within 18 months of project completion.

MONTHLY UPDATES

Upon commitment of funds from the City, borrower must provide written monthly updates to City staff. Monthly updates will allow City staff to anticipate upcoming approvals needed and to stay informed about efforts to move the project forward on schedule. If monthly updates are not provided in a timely manner, decreased developer capacity points may be assessed for the next NOFA application submitted by the project sponsor. If HOME funds are awarded, monthly updates should include a schedule projection related to the four year completion deadline required by HUD.

SUBORDINATION

The City will no longer subordinate its affordability covenants to the deeds of trust securing other lenders' financing, with the exception of State and Federal funding sources (subject to staff approval and to the ratio of loan to total development cost). The affordability covenants control, among other things, the maximum income of tenants of

project units, and the maximum rents allowed for project units. The City deed of trust may be subordinated to private financing on a case-by-case basis.

LOAN TERMS - RENTAL PROJECTS

Loans for rental projects are typically provided at a simple interest rate of three percent (3%) per annum, for a term of fifty-five (55) years. Payments of interest and principal will be due from excess cash flow from operations after payment of operating costs, senior debt, reserves, and deferred developer fee. To the extent payments cannot be made, they will be deferred for the term of the loan. All loans are due on sale, refinancing, or transfer (except to a related entity, such as a limited partnership, subject to City approval).

City loans will be evidenced by a promissory note secured by a deed of trust on the project. A loan agreement will specify all development obligations. Post-occupancy use restrictions will be enforced through a regulatory agreement recorded against the project – including both the land and the improvements. The minimum term for affordability restrictions is 55 years.

LOAN TERMS - OWNERSHIP PROJECTS

The City intends for its investment to enable new homeownership projects to remain permanently affordable. Under the terms of the City funding, all assisted units must be sold to qualified first-time homebuyers at an affordable housing cost. This requires that the assisted unit be sold at an affordable sales price. Each time the assisted unit is sold, it must be sold at not more than the affordable sales price, which is set by formula and is dependent on the Area Median Income (as determined by HUD) and prevailing interest rates for first mortgages at the time of sale.

To help accomplish this, the City will provide a forgivable construction loan to the developer to be used for a portion of the development costs. The loan cannot exceed 50% of the total development cost of the affordable units. Loans for ownership projects are typically provided at a simple interest rate of three percent (3%) per annum, for a term of four (4) years. The City will forgive and convert to a grant that portion of its development loan equal to the difference between the total development cost and the total sales proceeds plus any other subsidies to the project. An Affordability Agreement will be recorded against the project at the beginning of construction, to be reconveyed and replaced by a Declaration of Resale Restrictions signed by each buyer as each unit is sold.

See Addendum, *Affordable Homeownership Development Program*, for a detailed description of the program.

ONE PERCENT LOAN FEE

A fee equal to one percent (1%) of the loan amount will be charged for all loans. Ordinarily, this fee will be collected from loan proceeds at the initial funding. This fee may be waived for projects receiving only HOME funds.

DISBURSEMENT OF FUNDS

Funds will be disbursed to borrower only for costs actually incurred. Payment for construction costs will be made on a progress payment basis, subject to approval of each

draw request by the City. The City will retain ten percent (10%) of the amount budgeted for construction as a performance retention, to be released upon recordation of a Notice of Completion, release of all liens, and satisfactory compliance with any other City requirements, including City contracting programs. Additionally, the City will retain an amount equal to the portion of the developer fee to be paid upon receipt and approval of a cost certification and approval of final lease-up documentation evidencing compliance with the regulatory requirements.

ADDITIONAL FINANCING GUIDELINES FOR RENTAL PROJECTS

SECTION 8 PROJECT-BASED VOUCHER ASSISTANCE

The Oakland Housing Authority (OHA) may utilize the City of Oakland's 2013-14 NOFA process as a first step in the competitive selection process required for awarding any available Section 8 Project-Based Vouchers. However, due to federal funding cuts and sequestration, Section 8 Project-Based Voucher awards may be severely limited or unavailable at the time of the NOFA Awards. OHA reserves the right to suspend, amend or modify the provisions of this Project-Based Voucher (PBV) offering and may negotiate modifications, award less than the full amount of PBV funding requested by a project or reject all proposals entirely.

If the project is selected for NOFA funding by the City, OHA will issue a Letter of Invitation to submit a request for Project Based Section 8 vouchers for the project. The project must then submit a request to OHA for Project-Based Vouchers, in accordance and in response to the Letter of Invitation. OHA will then review these responses to the Letter of Invitation, and based on those guidelines and the priorities outlined in the recently adopted *OHA Development Policy* (which can be found at [HTTP://WWW.OAKHA.ORG/PUBLIC_ANNOUNCEMENT/DEVELOPMENTPOLICY.PDF](http://www.oakha.org/public_announcement/developmentpolicy.pdf)), make provisional awards of Project Based Section 8 voucher funding based on available funding. The OHA Board of Commissioners must then approve the award of any Project-Based Voucher to a project.

Projects must be an eligible housing type for PBV assistance (*24 CFR 983.52 and 983.53*) and are subject to an environmental review under the National Environmental Policy Act (NEPA), a subsidy layering review, HUD Section 3 hiring goals and Davis-Bacon labor standards. The project must also meet accessibility requirements in accordance with the regulations implementing Section 504 of the Rehabilitation Act of 1973. Projects completing all applicable OHA and HUD reviews may then execute a Section 8 Project-Based Voucher Housing Assistance Payments (HAP) contract with OHA for an initial 15-year contract term.

Projects that request PBV should also understand that the Fair Market Rents shown in the *Income, Rent, Utility Allowance, and Owner-Occupied Housing Payment Limits* addendum are published by HUD annually and the basis for which public housing agencies set their voucher payment standards. It is the *OHA Voucher Payment Standard* that establishes the maximum approvable contract rents for PBV program units. OHA

will conduct a rent comparability survey prepared by a state certified appraiser to determine the initial PBV contract rents for the project.

For additional information about the Oakland Housing Authority's PBV program, sample contracts, and applicable Federal requirements, contact Doug Lee, OHA Senior Management Analyst at (510) 587-2155, or email: dlee@oakha.org.

Sponsors are requested to submit their applications and project budgets assuming no Section 8 PBV assistance will be available. If a project receives a PBV award and is able to leverage additional permanent financing that reduces the need for City funding, the City's funding commitment will be reduced based on the amount of additional funds leveraged.

PRESERVATION PROJECTS

Applicants seeking to preserve existing affordable housing in danger of conversion to market-rate rents as a result of the non-renewal of expiring federal subsidies or tax credits must show that the project will remain financially feasible, with all income and rent restrictions met, throughout the term of the regulatory agreement. If a rental or operating subsidy is currently part of the financing plan, applicants must show that the project will still be feasible if that rental or operating subsidy contract is not renewed.

OPERATING BUDGET

Operating budgets and 30-year proformas must meet the following criteria:

- The operating budget must show at least break-even cash flow within 18 months of initial rent-up.
- Include operating and replacement reserves (See Replacement and Operating Reserve Requirements below).
- 5% annual vacancy/collection loss for family, senior, and preservation projects and 10% annual vacancy/collection loss for SRO or special needs projects.
- 3.5% annual increase for expenses (other than property taxes and replacement reserves deposits) and 2.5% annual increase for income.
- The operating budget will be reviewed to ensure it is sufficient for proper maintenance and management but is not excessive compared to other similar properties.
- If rental assistance is assumed, two operating proformas must be provided, one assuming rental assistance will be renewed and one assuming rental assistance will expire after the initial contract term. Rents must remain restricted according to City requirements even if the rental assistance is no longer available.

CASH FLOW/INCENTIVE MANAGEMENT FEE

For nonprofits, if a project has no monitoring findings or other violations of City or other agreements, and reserves are fully funded, excess cash flow (after payment of operating costs, reserves, senior debt, deferred developer fee, and partnership/asset management fee) will be split between the developer and the City, with 50% of excess cash flow paid to the City as a residual receipts loan payment and 50% for the borrower as an Incentive Management Fee. This fee shall be used for projects and activities contributing directly

to the developer's (or its affiliate's) affordable housing programs and community development activities. If other lenders also require residual receipts payments, the excess cash flow can be distributed based on relative loan amounts. Staff should be included in any negotiations of residual receipts loan payments.

For for-profit applicants, the maximum cash on cash return on equity (annual Before Tax Cash Flow/equity) shall be 15%. The Before Tax Cash Flow is to be limited to the stated amount and excess funds must be used to repay City loans.

REPLACEMENT AND OPERATING RESERVE REQUIREMENTS

City financing is generally in place far longer than other financing sources. As a result, the owner's ability to maintain and repair the project over the long term is extremely important to the City. Exceptions to the stated requirements will be granted in rare cases only. Use of replacement and operating reserves is subject to prior review and approval by the City.

- **Replacement Reserves:** 0.6% of the replacement cost of the structure annually, up to \$600 per unit for family developments and \$500 per unit for senior developments. For rehabilitation projects, developers will be required to submit a third party replacement cost analysis in which the lifecycle and cost of major building systems is estimated and amortized over the number of units and years. Gut rehab projects should use reserve standards for new construction projects. The City reserves the right to request an updated replacement reserve analysis every five years.
- **Operating Reserves:** Annual deposits of not less than 2% of annual gross rental income are required until an operating reserve has been capitalized at a level equal to six months operating costs and debt service. The operating reserve must be maintained at the level of six months of operating costs during the term of the City regulatory agreement.

If a rental subsidy transition reserve is included in the project budget, that transition reserve shall be in addition to the operating reserve minimum described above.

DESIGN GUIDELINES

PROJECT SIZE AND UNIT TYPE REQUIREMENTS

Projects must be at least 10 units in size. In special cases, projects of less than 10 units will be considered.

For family new construction projects, at least 15% of the units must be provided for larger families (3 & 4 bedrooms) unless it can be demonstrated that such a unit mix is not feasible. For family rehabilitation projects, at least 10% of the units must be provided for larger families (3 & 4 bedrooms) unless it can be demonstrated that such a unit mix is not feasible.

MARKET DEMAND

Projects should be planned and designed according to market demand. Demand for the type, location, and size of units at the proposed rents or sales prices must be documented at the time of application. Projects that receive HOME funds (or other projects as requested) are also required to submit a complete market study prior to loan closing, according to HUD requirements. Market studies should follow the guidelines of the California Tax Credit Allocation Committee or of the state Department of Housing and Community Development.

LIVABILITY STANDARDS

The City's provision of affordable housing financing is a long term investment. Underwriting includes assuring that each development will be well-designed and well-constructed to provide decent, safe affordable housing over the long term for a population that does not have a wide range of housing choices.

The quality and marketability of any housing unit is affected by its size and the livability of the space including the space's ability to accommodate the potential number of occupants and the necessary furniture. A larger unit does not guarantee the successful accommodation of a particular furniture layout over a more efficiently laid out smaller one. The project must meet all code requirements imposed by the Building and Planning Departments, but it may be appropriate to exceed these requirements for certain projects.

- Unit layout and size – Housing Development staff will carefully review unit size and layout for livability.
- Windows/Lighting/Ventilation – Units must be designed so that there is adequate natural light and ventilation.
- Parking – In general, the minimum number of spaces required for the particular site shall be provided. Any reductions in that number must be approved by both the Planning/Zoning staff and the Housing Development staff. Secure resident bicycle parking should be provided that meets or exceeds the City's bicycle parking ordinance.
- Building Shape and Appearance – The structure should respond to its context, enhance the neighborhood, and create a pride of place for its residents.
- Landscaping – The design should be appropriate for the intended use of all of the residents.
- Quality of Building Materials – Materials must be of a quality and durability to assure long term viability of the structures.
- Open Space/Storage Space - The project must address adequate levels of the following, based on the type of project, location and target group. Examples of acceptable open space/storage space include:
 - common space (e.g. community room);
 - secure, on-site laundry facilities;
 - children's play area (family projects);
 - storage space (both inside and outside of the unit)
 - open space (public and private space within the housing complex)

SUSTAINABLE DEVELOPMENT

In 1998, Oakland adopted a Sustainable Development Initiative to direct attention to sustainable development principles for environmental, economic, and social equity considerations. The initiative will apply to any NOFA project receiving over \$100,000. Sustainable development issues are often described as encouraging the Three E's:

- *Environmental* sustainability guidelines address site and design, construction waste, water impacts, materials selection, indoor environmental quality, energy impacts and alternative transportation solutions.
- *Economic* dimensions address affordable housing, employment, and local ownership.
- *Equity* considerations address the relationship, both physical and social, of the project to its community and neighborhood.

Green Building Ordinance:

The City of Oakland has adopted a Green Building Ordinance that will apply to all projects. For more information about the Ordinance, go to the following website:

<http://www2.oaklandnet.com/Government/o/PBN/OurServices/GreenBuilding/index.htm>.

Certification Programs:

New Construction: As a minimum threshold for funding, new construction projects are required to be certified under either the GreenPoint Rated or LEED certification systems. Other rating or certification systems may also be acceptable, but the equivalency of the proposed system and the score to be achieved must be reviewed and approved by City staff. Applications must include a preliminary checklist for either GreenPoint Rated or LEED and the sponsor must confirm in the application that they will be certified under the selected program.

Rehabilitation Projects: As a minimum threshold for funding, rehabilitation projects are required to be certified under the GreenPoint Rated certification system. Two GreenPoint Rated certifications are possible for rehabs, an "Elements" certification (for minor rehabilitations) or a "Whole House" certification (for more extensive rehabs). Rehabilitation projects will be required to complete the Checklist for the application, and will be given points based on their GreenPoint score.

Rehab projects are encouraged to utilize the Multifamily component of Energy Upgrade California, which provides free technical assistance and rebates for energy saving upgrades. More information can be found at <https://multifamily.energyupgradeca.org/>.

It is understood that most proposals are in early stages of design development, and therefore, the applicants are asked to complete the GreenPoint or LEED checklist based on their intent to incorporate green building components. However, projects awarded City funding will be evaluated for the actual design prior to start of construction. The projects will be required to achieve the same GreenPoint score range as was achieved for NOFA scoring, and to have compliance certified by the appropriate entity at

construction completion. If the project does not achieve the score range initially proposed, the developer may be assessed negative points on the next NOFA application submitted.

Green Building Guidelines and Technical Assistance:

A wealth of information regarding green building techniques can be found from the following resources:

- Oakland's Green Building Resource Center (2nd Floor, 250 Frank Ogawa Plaza), or <http://www2.oaklandnet.com/Government/o/PBN/OurServices/GreenBuilding/index.htm>,
- StopWaste.org, at www.stopwaste.org,
- Build It Green, at www.builditgreen.org, especially for information about the GreenPoint Rated program,
- For rehabilitation projects, LISC's *Green Rehabilitation of Multifamily Rental Properties* is available at www.lisc.org.

INCLUSION OF COMPUTER TECHNOLOGY AND TUTORING SPACE

Projects must provide the capacity for high-speed internet access in each unit by a means that does not impede use of the primary telephone line. Projects are strongly encouraged to go beyond this minimum by providing and maintaining computers in a common area, providing computer training, or providing free high-speed internet access to all units as an element of their Resident Services Plan. Designing spaces to make available for tutoring programs is also highly encouraged.

OTHER GUIDELINES AND CITY REQUIREMENTS

SITE CONTROL

At the time a development proposal is submitted, the developer must demonstrate that it has, and will maintain until the land is acquired, site control of the property for which funding is being requested. See the Application Instructions for acceptable documentation.

APPRAISALS

If acquisition is included in the development budget, applicants are required to submit a recent appraisal of the project site and any existing improvements as part of the application. Appraisals must have been completed within six months of the application deadline, or, if the project has already been acquired, within six months of acquisition. If no acquisition is involved, an appraisal is not required. See the *Application Instructions* for more specific guidelines.

DONATED PROPERTY

If land or buildings have been donated for the project, the value of the donated property should be included in the total development cost both as an acquisition cost and as a

source of funds. If the property was donated by the City, the value of the donated property will be included when calculating the percentage of City subsidy.

PHASE I AND II

Applications must include a Phase I Environmental Assessment. If recommended by the Phase I, a Phase II must be provided before a project will be recommended to the City Council. With the Phase II, applicants must also provide a discussion of mitigation measures, the impact of any recommendations on the project budget, design, etc.

CITY COUNCIL MEMBER MEETINGS

City of Oakland staff should attend and be included in the planning of all meetings with City Council members or their staff regarding affordable housing development projects. Please ensure enough advance notice is given to housing development staff prior to scheduling any meeting with a member of the City Council or their staff.

MANAGEMENT AND MARKETING

A Preliminary Management Plan and Marketing Plan or Marketing and Sales Plan must be submitted in the application. For rental projects, a Final Management and Marketing Plan will be required 180 days prior to construction completion and a Management Contract must be submitted to the City 90 days prior to construction completion. The final Marketing Plan must be approved prior to beginning rent-up activities, including marketing flyers and application materials.

Projects that include units targeted to households who are formerly homeless must incorporate the *EveryOne HOME Property Management Guidelines* (see Addendum) into their management and marketing practices.

For ownership projects, the final Marketing and Sales Plan must be approved prior to commencement of construction and marketing of units. Developers must include pre-purchase homebuyer counseling, offer post-purchase counseling for at least one year, and provide one year home warranties.

A market study, rental survey, recent sales comparables, or an alternative acceptable to the City must also be submitted, according to the guidelines in the Application Instructions. For projects funded by HOME funds, a complete market study for the project must be reviewed and approved by the City of Oakland prior to loan closing. Projects must be marketed in accordance with the City's Affirmative Fair Marketing Procedures.

COST CERTIFICATION

Developers must arrange for an independent cost certification on completion of a project. Approval of this certification is a requirement for the City's release of a substantial portion of the developer fee. This likely will require additional information from what is provided in a TCAC cost certification. At a minimum, the City Cost Certification should include:

- **Cost Reconciliation Schedule:** The analysis must include a final sources and uses budget based on all the line items of the original City approved budget. The borrower must show all sources in lien order and include limited and

general partner contributions, if applicable. This should include loans or equity contributions that were spent and expenses that were incurred during the development period. The borrower must show the total proposed initial sources and uses and the actual sources and uses by line item. The analysis must explain any difference for line items that are over or below 10% of the original sources and uses budget. Please note that the City's approved budget must be used for this analysis. For HOME projects, ensure that all of the City's final uses were spent on eligible costs.

- Analysis of Reserve Accounts: The borrower must show the total proposed initial reserve amounts and the actual initial reserve deposit. The analysis must explain any difference between the proposed reserve amount and the deposited amount.

It is recommended that project sponsors check with City staff to ensure the format and information provided will be acceptable to the City prior to starting the Cost Certification.

RELOCATION

State or federal relocation law will apply for projects that will temporarily or permanently displace current business or residential occupants, and relocation assistance and benefits may be required which can add substantially to the project cost. See the *Application Instructions* for more information.

RESIDENT SERVICES AND SPECIAL NEEDS UNITS

For rental projects, supportive and social service coordination reasonable for the population being served may be included as a cost paid by building operations. However, direct service provision may not be paid for from the building's operating funds. For questions about potential sources of services funding, contact Susan Shelton in the City of Oakland's Department of Human Services at srshelton@oaklandnet.com.

"Special needs units" are defined as units reserved for populations including the following: developmentally disabled, survivors of physical abuse, homeless persons, persons with chronic illness including HIV/AIDS or mental illness, displaced teenage parents (or expectant teenage parents), individuals exiting from institutional settings, youth exiting foster care, chronic substance abusers, or another specific group as approved by the City of Oakland.

UNITS FOR HOMELESS HOUSEHOLDS OR THOSE AT RISK OF HOMELESSNESS

For NOFA scoring purposes, the City will utilize the definition of "homeless" and "at risk of homelessness" from the MHP Regulations of the state Department of Housing and Community Development, Section 7341(b) and (c), which can be found at <http://www.hcd.ca.gov/fa/multifamilyregs.html>.

Projects with units set aside for formerly homeless households or those at risk of homelessness must provide sufficient supportive services for the population served and show sufficient commitments for services.

The Corporation for Supportive Housing's website includes useful resources regarding the development, financing, and management of permanent supportive housing, www.csh.org.

EVERYONE HOME: ALAMEDA COUNTY'S PLAN TO END HOMELESSNESS

The EveryOne Home Plan to end homelessness in Alameda County aims to create affordable and available housing units for key target populations – individuals and families that are homeless or at-risk of homelessness, extremely low-income households impacted by serious mental health issues or living with HIV/AIDS. The EveryOne Home website provides additional information and resources at <http://www.everyonehome.org>

The City of Oakland encourages all projects to include as many EveryOne Home qualified units as possible to contribute to the County's goal of creating 15,000 housing opportunities. Please review the definition of an EveryOne HOME unit which can be found at: http://www.everyonehome.org/media/resources_EveryOneHomeUnit.pdf

EveryOne Home has adopted *Property Management Guidelines* (see Addendum) to ensure that screening procedures do not unintentionally exclude those who most need the housing, such as those who have struggled with disabilities, homelessness, and other difficulties in their lives. The City encourages all developments to incorporate these into their management and marketing practices. Companion materials, including the sample application form referenced in the Guidelines, can be found on the EveryOne Home website at <http://www.everyonehome.org> .

OAKLAND'S PERMANENT ACCESS TO HOUSING (PATH) PLAN

Oakland's Permanent Access to Housing (PATH) Strategy provides a roadmap for ending homelessness in the City over a period of the next fifteen years. PATH is a companion to EveryOne Home, Alameda County's Homeless Housing Plan. The goal of both programs is to solve the problem of homelessness, rather than simply manage it by making a transition from emergency shelters and services towards acquiring, developing and operating permanent, affordable and supportive housing.

The Oakland PATH strategy focuses on a Housing First model to rapidly re-house individuals and families currently on the street and without permanent housing.

For more information about the Oakland PATH Plan, see the website of the Community Housing Division of the Oakland Department of Human Services at: <http://www2.oaklandnet.com/Government/o/DHS/s/CommunityHousingServices>, or contact Susan Shelton at in the City of Oakland's Department of Human Services at srshelton@oaklandnet.com.

EVIDENCE OF COMMUNITY OUTREACH

For new construction projects or substantial rehabilitations, the developer must submit evidence of community outreach to residents surrounding the proposed development and to relevant community groups. See the Application Instructions for a list of required items.

This is not applicable for rehab projects unless unit count, building envelope, parking, use, or other substantial changes are planned for the property. However, occupied rehab projects must show that information regarding the planned work and its potential impacts on residents has been provided to any existing tenants.

MIXED-USE PROJECTS

The City of Oakland has developed a citywide retail enhancement strategy which encourages mixed-use developments in commercial districts. To ensure new retail space is well-designed, marketable and well-located, the City has created guidelines for retail space in mixed-use development. Developers of mixed-use projects are encouraged to contact Keira Williams in the Business Development Services unit for a copy of the guidelines, general technical assistance on the topic and review of the commercial portion of the proposed project, at kwilliams@oaklandnet.com.

Proposals for developments with housing and commercial space must include the following:

- Evidence of demand for commercial/retail and marketability of space (with a market study or a survey of comparables and vacancy rates), or at least half the commercial/retail space pre-leased.
- Letters of interest from funders of the commercial portion of the development at time of application. **A City loan will not be closed until funding for the commercial portion is secured.**
- A development budget with the costs attributable to the commercial/retail component clearly delineated from those for the residential component.

MIXED-INCOME PROJECTS

In mixed income properties, the affordable units must not be substantially different from the market-rate units. All lower income units must be of the same construction type as market rate units, but need not contain the same interior amenities or the same amount of floor space as long as livability is maintained. The exterior of the lower income units must be indistinguishable from the exterior of the market rate units. Lower income units should be reasonably distributed throughout the project and should not be isolated or segregated in only one portion of the project.

CONTRACT COMPLIANCE – EMPLOYMENT PROGRAMS AND REQUIREMENTS

Applicants must comply with the following City of Oakland Employment and Contracting programs:

- 50% Local and Small Local For Profit and Not For Profit Business Enterprise Program (L/SLBE)
- 50% Local Employment Program
- 15% Oakland Apprenticeship Program
- Payment of Prevailing Wages
- City of Oakland Living Wage Ordinance
- City of Oakland Equal Benefits Ordinance

- Electronic Certified Payroll Submittals

More information can be found at the City of Oakland's website at <http://www2.oaklandnet.com/Government/o/CityAdministration/d/CP/index.htm> and at the meeting with Contract Compliance staff to be held prior to the NOFA deadline. It is recommended that sponsors who receive City funding awards meet with Contract Compliance staff early in the predevelopment process to ensure a complete understanding of all the options regarding how the project may meet the requirements. Submission of documentation regarding the above requirements and a meeting with the contractors and Contract Compliance staff will also be required prior to construction start.

Additional contracting requirements and instructions include:

- The use of contractors that appear on the federal government's list of suspended and debarred contractors is expressly prohibited.
- The Developer must require Prime Contractors and all subcontractors to enter ALL certified payroll reports into the Labor Compliance Program (LCP) tracker in accordance with Special Provision Section 7 subsection 7-2.2.1. The LCP tracker is a web based program that monitors the payment of Davis Bacon and State of California prevailing wages. The prime contractor will be charged a monthly fee for this service (subcontractors will not be charged).
- The 50% L/SLBE requirement must be met on both the professional services and construction phases of each project. A minimum of 25% of this requirement must be met with SLBE participation.
- The general contractor selected must comply with the State of California Prevailing Wage as determined by the Department of Industrial Relations. Pursuant to the California Code of Regulations Section 16001(d), residential projects consist of single-family homes and apartments up to and including four stories. Applicants seeking residential wage rates must submit a request to Contract Compliance at least 90 days prior to the bid advertisement. The request for residential rates must include a description of the project, type of project (i.e. new construction or rehabilitation), the number of units, and the anticipated bid advertisement date. The residential prevailing wage determination includes those crafts(s)/classifications(s), or type of worker(s) not covered by the general determination. Special determinations are issued on a project-by-project basis and cannot be issued retroactive to the bid advertisement date of the project. In the absence of a residential prevailing wage determination, the awarding body should refer to the State of California Director's General Prevailing Wage Determinations.

Residential prevailing wage determinations are issued based upon information provided which indicates that the contract has not been let or signed for the project. If the construction contract is not signed and work does not begin within twelve (12) months of the residential wage determination, you must inform the division of Contract Compliance so that updated rates can be obtained.

In the absence of a special residential wage determination, the general prevailing wage determination must be used. These rates can be obtained via the internet at www.dir.ca.gov/DLSR.

OAKLAND RESIDENT AND WORKER PREFERENCE

The City of Oakland has established a policy granting preference to Oakland residents and Oakland workers in the selection of tenants or homebuyers for affordable housing projects and programs assisted by City housing NOFA funds. All Oakland residents and workers would be eligible for the preference regardless of the length of time of residency or employment and the preference would be applied only if and to the extent that any other funding sources for the project permit the preference.

DISPLACEE PREFERENCE

Preference must be given to residents who have been displaced as a result of the City of Oakland's public projects or the City's code enforcement activities. If such a tenant household is referred to the property, the next available assisted unit must be rented to the displaced household, irrespective of waiting lists, if the household is otherwise eligible for occupancy.

REVIEW AND APPROVAL OF PLANS

Because Housing Development may have different concerns about the physical structure than the Planning or Building Department address, Housing Development staff must be involved throughout the planning/design review process. It is the obligation of the developer to provide adequate notification to the Housing Development Manager of all upcoming meetings with Planning and/or Building staff and with the Design Review Committee and Planning Commission regarding the project. Both Planning and Housing Development staff must approve the plans for the development.

PLANNING AND ZONING

A "Zoning Summary" is required as part of the Application. Applicants must submit a request in writing to the City's Zoning Division, at 250 Frank H. Ogawa Plaza, Suite 2114. See the NOFA Application Exhibit, "Letter of Conformity with Planning and Zoning Requirements" for detailed instructions.

Successful NOFA applicants will be required to hold a "Pre-Application Meeting" with Planning and Zoning to review their project. The pre-application meeting is not required to obtain the Zoning Summary letter; however, applicants may wish to arrange a review meeting before submitting their NOFA application. Please allow the Zoning Division a minimum of 4 weeks to process a pre-application conference request.

Developers must provide advance notice to the Housing Development unit of any meetings with the Building Division, Planning and Zoning Divisions, Design Review Committee and Planning Commission.

INSURANCE

During development, developers must obtain comprehensive general liability and property (hazard) insurance coverage of at least \$2 million. The City also requires

property damage or builder's risk insurance in an amount equal to 100% of the replacement cost of the structure, with a lender's loss payable endorsement in favor of the City. Construction contractors will be required to obtain liability and builders risk insurance in an amount equal to \$2 million. Automobile insurance, professional liability, workers compensation, and employer's liability coverage are also required.

After completion, similar levels of liability and hazard coverage are specified by the regulatory agreement. All policies must name the City as an additional insured; property insurance must have a lenders loss payable endorsement. For more information on insurance requirements, please contact Housing Development staff.

PAYMENT AND PERFORMANCE BONDS

General contractors will be required to provide payment and performance bonds equal to 100% of the construction contract amount.

ENVIRONMENTAL REVIEW AND ASSESSMENT (CEQA & NEPA)

CEQA: Prior to staff recommendation to the City Council, projects must be shown to meet the requirements of the California Environmental Quality Act (CEQA). Projects with a completed CEQA clearance (certified EIR, or negative declaration) have met this requirement, but must submit their CEQA documentation. For other projects, applicants must submit a Preliminary CEQA Checklist, which covers materials needed for the CEQA determination. Where specific studies are needed, that work should be done by a qualified consultant.

Studies required by the CEQA Checklist are due with the NOFA application. If additional CEQA-related work is required by Oakland Planning staff, it must be submitted to Planning no later than 45 days from the due date of this NOFA; otherwise, the application will likely have to be delayed for a future NOFA. If it appears that additional CEQA work will be required, we recommend that you contact Planning and Zoning (238-3911) to submit a Pre-Application as early as possible prior to the NOFA submittal date as the development and review of CEQA related documents may exceed 45 days.

NEPA: If the proposed project is financed with federal funds, the project must also be assessed in accordance with the National Environmental Policy Act of 1960 (NEPA) prior to loan closing. NEPA review should be coordinated with the CEQA review to the extent possible.

Choice-Limiting Actions Prohibited During NEPA Review. Because of the likelihood that federal funds will be awarded, applicants must refrain from undertaking activities that would have an adverse environmental impact or would otherwise limit the choice of reasonable alternatives between the time of application submittal and when the City has completed its environmental review process. Such activities include acquiring, rehabilitating, converting, leasing, repairing or constructing property, any kind of site preparation, or committing or expending HUD or non-Federal funds for HOME program activities with respect to any project eligible under this NOFA. If the applicant has entered into a purchase agreement or contract for any of the above activities prior to applying for NOFA funds, work may continue pursuant to that contract. But amendments to the contract or new contracts may not be entered into. HOME funds may

not be used to reimburse an applicant for project related costs incurred after the applicant has submitted the application for funding and before the completion of the City's environmental review process except for activities that are excluded and not subject to federal environmental review requirements, and for certain relocation costs.

Applicants must sign a certification that they understand this restriction (see *Application*). The prohibition against choice-limiting actions begins on the date that the application is submitted to the City. Applicants are encouraged to check with HCD staff regarding eligible expenditures after the submission of an application. Failure to comply with this requirement could result in a project being ineligible for City funding.

HCD staff will seek to obtain NEPA approval in a timely manner. However, **if you are seeking readiness points for the first round of Low Income Housing Tax Credits or other sources**, please contact housing staff prior to submitting your NOFA application to discuss the NEPA timeline. Completing the NEPA review, including local and federal noticing periods, takes a minimum of 8-12 weeks after receipt of all necessary information.

FEDERAL REQUIREMENTS

If the applicant may be receiving federal funding (such as HOME funds), they will be required to comply with applicable federal statutes and laws, including, but not limited to:

- Section 3 of the U.S. Housing Act of 1968, as amended
- Equal Opportunity and related requirements in 24 CFR Section 982.53
- Section 504 of the Rehabilitation Act of 1973
- Americans with Disabilities Act of 1990
- Architectural Barriers Act of 1968
- Fair Housing Act of 1988
- National Environmental Protection Act (NEPA)
- Federal prevailing wage requirements (Please note that projects will be required to meet the higher of Federal or State prevailing wage requirements).

DISABLED AND SENIOR ACCESSIBILITY

Developments assisted by the City must meet the requirements of the Americans with Disabilities Act and the Fair Housing Act, among other local, state, and federal laws. Projects with any federal funds must also meet the more stringent accessibility requirements of Section 504 of the Rehabilitation Act of 1973 (24 CFR 100.205 and Part 8). Section 504 sets minimum percentages of accessible units, and calls for fully accessible common areas, among its numerous requirements. For projects funded with HOME, 5% of the total number of units must be accessible to people with physical disabilities, and an additional 2% of units must be accessible to people with auditory and visual disabilities, as defined in the Uniform Federal Accessibility Standards (UFAS).

Where Section 504, the Fair Housing Act, or ADA apply, the developer and project architect must make a written certification of compliance.

LEAD-BASED PAINT

The use of lead-based paint on City funded projects is prohibited. Testing and abatement of lead-based paint in rehabilitation projects may be required. Projects typically must follow the federal guidelines, which require lead-safe work practices and notification to prospective residents of potential lead-based paint hazards, among other requirements. In addition, Project sponsors should be aware of the EPA regulation that requires all renovators of pre-1978 homes and child-occupied facilities to be trained in lead-safe work practices and certified by the EPA. For more information go to www.epa.gov/lead/pubs/renovation.htm. Training is available through the Alameda County Lead Poisoning Prevention Program and other EPA accredited training providers.

Alameda County Lead Poisoning Prevention Program may have funds available for lead hazard control work at family rental properties (1-bedroom units or larger) built before 1978 that are either vacant or occupied by low-income tenants. More information is available at www.aclppp.org/programs/leadfunding.htm.

RESTRICTION ON CONDOMINIUM CONVERSIONS

Project owners may not convert restricted rental units to condominium or cooperative ownership or sell condominium or cooperative conversion rights for the Property during the term of the 55-year Regulatory Agreement. Oakland will give reasonable consideration to any proposal to convert Project Units to limited-equity cooperative ownership.

LIMITATION ON CAMPAIGN CONTRIBUTIONS

The Oakland Campaign Reform Act prohibits parties doing business or seeking to do business with the City of Oakland from making campaign contributions to Oakland candidates between commencement of negotiations and either 180 days after completion of, or termination of, negotiations. Applicants are required to submit the *Acknowledgement of Campaign Contributions Limits* form.

OAKLAND REDEVELOPMENT AGENCY DISSOLUTION

According to state law, the Oakland Redevelopment Agency dissolved on February 12, 2012. The City of Oakland elected to assume the housing assets, functions, and obligations of the Redevelopment Agency. Therefore, all previous housing development loans, agreements, and obligations entered into by the Redevelopment Agency have now been assumed by the City of Oakland.

NONDISCRIMINATION

All applicants must agree not to discriminate on the basis of race, color, ancestry, national origin, religion, sex, sexual preference, age, marital status, family status, source of income, physical or mental disability, Acquired Immune Deficiency Syndrome (AIDS) or AIDS-related conditions (ARC), or any other arbitrary basis.
