

# CITYWIDE RENTAL SURVEY

*(September 2015)*

COVERING YEARS 2008-2015

Prepared By:

City of Oakland  
Housing and Community Development Department  
250 Frank H. Ogawa Plaza, 5<sup>th</sup> Floor  
Oakland, CA 94612

Data analysis by:  
Akanksha Chopra

# CITY OF OAKLAND 2015 RENTAL SURVEY

## *METHODOLOGY*

Data for the Rental Survey is compiled every year on July 15<sup>th</sup> from listings of vacant apartment units advertised on [www.craigslist.org](http://www.craigslist.org). Data is presented by number of bedrooms and geographic area within Oakland. The geographic areas include: Downtown, East Oakland, Oakland Hills/Mills, Lake Merritt/Grand, North Oakland/Temescal, Piedmont/Montclair, Rockridge and West Oakland.

We use median rent as the statistic to describe rental rates, which is common in housing market studies. If a category of unit sizes or a geographic area has four or fewer listings, we do not calculate a median and indicate the lack of listings with “N/A” (not available). Data is collected for all available unit sizes but the rental survey analysis only covers studio through 3 bedroom units.

## *FINDINGS*

The survey does not measure rent increases experienced by existing tenants who do not move, many of whom are covered by Oakland’s Residential Rent Arbitration Ordinance. It does provide a measure of typical rents faced by tenants seeking to rent a unit on the private market.

### Median Rents

In 2015, the overall Citywide median rental data experienced a steep rise. The only exception were the one-bedrooms that remained relatively flat. Median rental rates for two-bedroom units experienced the steepest rise, closely followed by the studio units. Three-bedroom units also experienced a substantial increase in their median rental rates. This observed trend is a continuation of overall sharp increase in median rent observed for the year 2014.

Citywide data on rents hide some variation among neighborhoods:

- For studios, the Citywide median rent increased by 35%, as their overall supply fell by 37% from the year 2014. The three neighborhoods of East Oakland, Lake Merritt/Grand and North Oakland/Temescal showed dramatic increase in median rents with 37%, 28% and 38% rises respectively. The supply registered in the remaining neighborhoods of Downtown, Hills/Mills, Piedmont/Montclair, Rockridge and West Oakland was not sufficient to analyze rental cost changes though is an indicator of a very tight studio rental supply in these neighborhoods.
- For one-bedroom units, the median rent showed a slight increase of 2% Citywide over 2014, while their supply increased by 13%. West Oakland and East Oakland experienced 30% rent

increases. All other areas of the city experienced a single digit percentage increase over 2014 rents except for the North Oakland/Temescal neighborhood that saw a 4% decrease in rents.

- For two-bedroom units, median rent had a sharp increase of 40% citywide, while their supply fell by 7%. The two neighborhoods of Hills/Mills and Piedmont/Montclair registered a dramatic increase in rents, with 54% and 46% respectively. Many other neighborhoods also experienced significant increases with East Oakland at 28%, Rockridge at 19%, Lake Merritt/Grand at 11%, and Temescal/North Oakland at 9%. Downtown had a slight increase of 2% in median rents.
- For three-bedroom units, the median rent increased 19% citywide, while their supply fell by 7%. The distribution of percentage-changes varied drastically with five of the neighborhoods experiencing significant increases and three registering a decline or negligible supply. Neighborhoods that had appreciation in rental price include East Oakland (36%), North Oakland/Temescal (30%), Piedmont/Montclair (32%), West Oakland (24%) and Rockridge (22%). Lake Merritt/Grand experienced a 8% decline followed by Hills/Mills with a 3% decline.

**Table 1: Median Monthly Asking Rents for Available Apartments, 2008-2015**

year	Studio		1 Bedroom		2 Bedroom		3 Bedroom	
	Median Rent	1-year Change						
2008	\$800	-	\$1,150	-	\$ 1,500	-	\$1,968	-
2009	\$825	3%	\$ 1,030	-10%	\$ 1,425	-5%	\$ 1,750	-11%
2010	\$795	-4%	\$1,050	2%	\$ 1,395	-2%	\$ 1,725	-1%
2011	\$850	7%	\$1,025	-2%	\$1,350	-3%	\$1,798	4%
2012	\$850	0%	\$ 1,095	7%	\$1,395	3%	\$ 1,750	-3%
2014	\$1,094	29%	\$ 1,895	73%	\$2,100	51%	\$ 2,500	43%
2015	\$1,475	35%	\$ 1,929	2%	\$2,950	40%	\$ 2,975	19%

### Affordability

Oakland’s market rate rents are well above what is affordable to the typical Oakland renter. Housing is generally considered to be affordable when gross rents (rent plus utilities paid by the tenant) do not exceed 30 percent of a tenant’s household income. According to the 2000 Census, the median household income for renters was \$29,278. In other words, half of all Oakland renter households have incomes less than \$30,000. This would allow them to pay no more than \$750 in gross rents, or roughly \$700 to \$725 plus utilities. These levels are well below the median rent for available apartments in Oakland.

Another way of looking at this is to compare current rent levels to what is affordable to households earning the City’s Minimum Wage (\$12.25/hour), the California minimum wage (\$9.00/hour) or the Federal minimum wage (\$7.25/hour). Table 2 shows the numbers of hours a person would have to work, per week, in order to afford a market-rate unit. The table does not include an adjustment for tenant-paid utility costs, and the number of hours of work required would be higher if this factor were included.

**Table 2: Weekly Hours of Work Required to Afford a Market-Priced Rental Unit in 2015\***

Wage Rate	Oakland Minimum Wage (\$12.25)		CA State Minimum Wage (\$9.00)		Federal Minimum Wage (\$7.25)	
	1 BR apt	2 BR apt	1 BR apt	2 BR apt	1 BR apt	2 BR apt
Unit Size	1 BR apt	2 BR apt	1 BR apt	2 BR apt	1 BR apt	2 BR apt
Market Median Rent	\$1,929	\$2,950	\$1,929	\$2,950	\$1,929	\$2,950
1 wage-earner	121	185	165	252	205	313
2 wage-earners	61	93	82	126	102	156

\*Annual earnings for full-time workers at these rates would be as follows:

*Oakland Minimum wage:* one wage-earner: \$25,480, two wage-earners: \$50,960

*CA Minimum wage:* one wage-earner: \$18,720, two wage-earners: \$37,440

*Federal Minimum wage:* one wage-earner: \$15,080, two wage-earners: \$30,160

It should be noted that in all cases, with either one wage-earner or two, it would require working more than 40 hours per week to afford the median rent.

Availability of Units

After large increases in the number of studio, one-, two- and three-bedroom units listed from 2008 to 2009, the number of listings for available units continue to decline from 2010 through 2015. This decline has been significant: in 2009 there were a total of 1,830 units listed whereas in 2014 there were only 495 units listed in craigslist. In 2015, there was only a slight decline of 2% in unit listings.

**Table 3: Number of Listings for Rental Units, 2008-2015**

	Studio		1 Bedroom		2 Bedroom		3 Bedroom		Total 0-3 Bedroom	
	Count	% Change	Count	% Change	Count	% Change	Count	% Change	Count	% Change
2008	121	N/A	381	N/A	350	N/A	154	N/A	1006	-
2009	261	116%	742	95%	578	65%	249	62%	1830	82%
2010	168	-36%	728	-2%	555	-4%	190	-24%	1641	-10%
2011	165	-2%	466	-36%	421	-24%	198	4%	1250	-24%
2012	89	-46%	244	-48%	372	-12%	159	-20%	864	-31%
2014	48	-46%	193	-21%	169	-55%	85	-47%	495	-43%
2015	37	-23%	214	11%	153	-9%	79	-7%	483	-2%

The citywide decrease in number of listings hides variation across neighborhoods. With the year 2015 decelerating the decline rate, many neighborhoods experienced dramatic increases in supply of rental units. The only exception to this trend was East Oakland and Lake Merritt that saw a 41% and 8% decline respectively from 2014. The remaining neighborhoods registered significant increases within the range of 21 – 41%, with North Oakland/Temescal experiencing the highest percentage increase.
