*Any Micro Telecommunications Facility proposal requiring Regular Design Review may only be granted upon determination that the proposal conforms to the Regular Design Review criteria set forth in Section 17.136.050 and to the following **additional** design review criteria:*

*In addition, any conditional use permit required for a Micro Telecommunications Facility may only be granted upon determination that the proposal conforms to the general use permit criteria set forth in Section 17.134.050 and to the following **additional** use permit criteria:*

Please indicate the way in which the proposal meets the following required criteria. Attach additional sheets if necessary.

Additional Design Review (DR) Criteria for Micro Facilities (Section 17.128.050B):

1. Antennas should be painted and/or textured to match the existing structure:

2. Antennas mounted on architecturally significant structures or significant architectural details of the building should be covered by appropriate casings which are manufactured to match existing architectural features found on the building:

3. Where feasible, antennas can be placed directly above, below or incorporated with vertical design elements of a building to help in camouflaging:

4. That all reasonable means of reducing public access to the antennas and equipment has been made, including, but not limited to, placement in or on buildings or structures, fencing, anti-climbing measures and anti-tampering devices:

Conditional Use Permit (CUP) Findings for Micro Facilities (Section 17.128.050C):
