COUNCIL DISTRICT: City-Wide

RECOMMENDATION

Receive an informational report transmitting the Administration's assessment of the Councilmembers' proposed budget figures and amendments as part of the FY 2015-17 budget development, in accordance with the Consolidated Fiscal Policy. Staff recommends that Council consider both the fiscal and operational impacts of these amendments.

OUTCOME

This is an informational report providing validation and potential impacts of items in the Councilmembers' budget proposals as part of the FY 2015-17 budget development. These assessments were conducted within a short period of time.

REASON FOR SUPPLEMENTAL

This report provides staff assessment to the FY 2015-17 budget proposals received from Council President Gibson-McElhaney, Vice Mayor Kaplan, Councilmember Gallo, and Councilmember Brooks, which became available on June 23, 2015. *Attachments A-D* delineate line item assessment of these proposed budget amendments indicating the Administration's assessment of budget proposal, noting any concerns, and potential impacts.

ANALYSIS

Budget is a financial plan to implement policies and deliver City's services in the future years. Such plan is built upon a set of assumptions including the economic analysis, historical data, public policies, departmental subject matter experts and community input. Staff is responsible to provide the best professional projections in revenue and expenditure. Modifications of such projections, both revenue and expenditure, may result in impacts to the City's future operations. For example, if revenue is not realized as projected and/or expenditures exceed appropriations, the City will be required to take immediate balancing measures to maintain its operations.

Item: 7
Special City Council
June 30, 2015

The Mayor and City Administrator's FY 2015-17 Proposed Policy Budget was published on April 30, 2015 and presented to Council on May 5, 2015 for community input and the City Council's consideration. Two errata have been issued subsequently to revise information based on the third quarter results as it became available in late May, to true-up grant funds since receiving actual grant award letters, and other minor corrections. The City Council President, as part of the budget development process, has presented budget amendments in accordance with the Consolidated Fiscal Policy (Ordinance #13279 C.M.S). Additionally, budget amendment proposals were provided by Vice Mayor Kaplan, Councilmember Gallo, and Councilmember Brooks to the Council President's Budget Proposal.

The Administration has provided a line-item assessment of the revenue categories, proposed reductions and additions/policy tradeoffs for each of the three budget proposals. Costing for expenditure line items has been validated.

Many of the suggested amendments fund new programs or initiatives, requiring clarity regarding the scope of work, program design, and implementation plan should they be adopted. Additional information would be critical for efficient and successful implementation of these initiatives.

Staff is also analyzing all proposals for compliance with the City Charter and the Consolidated Fiscal Policy around such issues as contributions to reserves, allocations to Kids First!, and use of one-time funds. Based upon the suggested amendments thus far received we do not foresee any complications, but we will keep you apprised if any arise.

This report along with other information related to the FY 2015-17 Proposed Budget is available at the budget website at www.oaklandnet.com/15-17Budget.

PUBLIC OUTREACH/INTEREST

As previously described, the budget process includes various methods for gathering public input and opportunities for public participation including a scientific poll and informal survey done in February, community budget forums in May; and upcoming budget hearings in June.

COORDINATION

This report was prepared by City Administrator's Office in coordination with Controller's Office Revenue Bureau, and other departments.

COST SUMMARY/IMPLICATIONS

There are no costs or fiscal impacts associated with the acceptance of this report.

REVENUE

Item #	Dept.	Purpose	Description	FY 2015 - 16	FY 2016 - 17	One-Time	Totals	Notes	Administrations' Assessment / Validation
1	GPF	REV	ADD: Local Agency Mandate Reimbursement	\$ -	\$ -	\$ 3,248,900	\$ 3,248,900	<i>Pending State budget and confirmed by CA Dept. of Finance</i>	The State Controller has submitted to the Department of Finance a request to make payments to local agencies for the reimbursement of mandate related costs incurred before 2004. Oakland is recommended to receive \$3,248,931.
2	GPF	REV	ADD: Business License Tax (Correction)	\$ 1,000,000	\$ 1,051,300	\$ -	\$ 2,051,300	<i>Restores a portion of Administration's errata cut to biz tax revenue (\$2.8 million per year).</i>	This projection is very optimistic as it reflects a 7.3% increase to this revenue source in FY 2015-16 over FY 2014-15 projections. This is not staff's projection based on the 3rd Quarter results. Staff understands that the additional revenue is in part based on rental units. There are approximately 92,000 rental units in Oakland and roughly 65% fall under Costa/Hawkins Rent Control. Of the remaining 35% it is unknown how many are exempt from BLT due to non-profit status. In general, rental units where the landlord/owner is certified as a non-profit are exempt from the City's business license. (OMC 5.04.630). Any additional revenue resulting from the Land Lord Audit may produce more revenue in FY 2015-16, but FY 2016-17 would be lower, because the revenue potential from penalties and interest is one-time and would be exhausted.
3	GPF	REV	ADD: Enhanced collections of delinquent revenue	\$ 330,000	\$ 660,000	\$ -	\$ 990,000	<i>Additional staff support required. Each TEO generates \$220,000 per year in collected taxes</i>	To achieve this revenue, the department would require an additional 3 FTE Tax Enforcement Officer II (as proposed below), who can conduct field work and business discovery. The recruitment for these positions is expected to take 6 months which is reflected in the proposed amendment.
4	GPF	REV	ADD: Litigation Payment(s)			\$ 500,000	\$ 500,000	<i>Results of Tow Audit</i>	This one-time payment is expected in FY 2015-16.
5	GPF	REV	ADD: Real Estate Transfer Tax - RETT (revised)	\$ -	\$ -	\$ 250,000	\$ 250,000	<i>One-time voluntary RETT payment</i>	This is a one-time Real Estate Transfer Tax payment that was received in FY 2014-15 after the third quarter report; therefore, the revenue in FY 2015-17 would be a transfer from fund balance.
6	GPF	REV	ADD BACK: Reduction in Dispensary Revenue	\$ 125,000	\$ 125,000	\$ -	\$ 250,000	<i>Sales revenue is up in permitted clubs and economic projections show continued growth.</i>	The proposed budget adjusted the permit fee revenue based on historical average level of collections from permitted dispensaries. This revenue is not tied to sales revenue. Additional revenue totaling \$105,000 will be realized if all eight permits are continuously issued and operational.
7	OFD	REV	ADD: Net Master Fee Schedule Changes adopted by Council	\$ 104,300	\$ 133,284	\$ -	\$ 237,584	<i>Corrects fee schedule in compliance with Prop 26</i>	This is consistent with Council action on the Master Fee Schedule amendments.
8	GPF	REV	ADD: Revenue from Medical Cannabis production	\$ -	\$ 225,000	\$ -	\$ 225,000	<i>Policy: Tax growers/manufacturers for community safety, consistency</i>	This projection is subject to adoption and implementation of policy to tax cannabis growers and manufacturers. We advise against allocating these funds before the policy is adopted. Should this policy be adopted, revenues are not anticipated until FY 2016-17.
9	GPF	REV	ADJUST: Balancing Reserves - Rainy Day	\$ -	\$ -	\$ 212,891	\$ 212,891	<i>As required</i>	An adjustment to the Rainy Day Policy set-aside based on the changes in the GPF tax revenues included in this proposal, provided they are adopted. This is required by the City's Consolidated Fiscal Policy.
10	OPW	REV	ADD: Zero Waste Settlement	\$ -	\$ -	\$ 56,467	\$ 56,467	<i>One-time settlement funds</i>	Consistent with legal settlement revenue for GPF.
11	GPF	REV	LESS: Balancing Reserves - OFCY	\$ -	\$ -	\$ (105,489)	\$ (105,489)	<i>As required</i>	Three percent of additional unrestricted revenues are mandated for Kids First Oakland Children's Fund based upon the revenue changes included in this proposal provided they are adopted. This is required by the City's Charter.
Subtotal of Additional Revenues				\$ 1,559,300	\$ 2,194,584	\$ 4,162,769	\$ 7,916,653		

REDUCTIONS

Item #	Dept.	Purpose	Description	FY 2015 - 16	FY 2016 - 17	One-Time	Totals	Notes	Administrations' Assessment / Validation
12	CAO	Trustworthy / Responsive Gov't	REDUCE: OPEB contribution	\$ (1,347,773)	\$ -	\$ -	\$ (1,347,773)	Maintain \$20 million total commitment to long-term liabilities. This reduces the additional amount proposed for allocation in the Errata.	Oakland has a signification amount of long-term liabilities. The intent of the additional contribution to OPEB is to reduce the City's' accrued liabilities. Through this additional funding and the Rainy Day Policy, the City is attempting to improve its fiscal sustainability. Without additional contributions the OPEB liabilities will contribute to grow.
13	OPD	Trustworthy / Responsive Gov't	REDUCE: OPD Overtime due to increased staffing	\$ (500,000)	\$ (500,000)	\$ -	\$ (1,000,000)	Increased staffing is expected to relieve mandatory OT	OPD overtime budget (\$13.4M) for next year is already reduced by over 20% over the current fiscal year budget (\$16.5M). Attachment E provides a history of OPD overtime in conjunction with the sworn position count. Additionally, the overtime budget has not historically been adjusted for any negotiated COLA amounts, therefore the current budget buys fewer overtime hours than in past years.
14	CAO	Trustworthy / Responsive Gov't	Swap one-time with Ongoing OPEB funds	\$ (1,350,476)	\$ -	\$ 1,350,476	\$ -	Release on-going funds from OPEB allocations	While it is fiscally responsible to commit ongoing funds for the repayment of long-term liabilities, use of one-time funding will require additional resources to be identified beyond this biennial budget

As an alternative, the \$100,000 could be allocated to City operations, thereby freeing an equivalent amount of grant funds for service providers. This will more directly align grant funding with service provision. The allocation of these funds and/or the reallocation of other funds freed are subject to approval of the Oakland WIB as part of the workforce investment budget.

27	HSD	Holistic Community Safety	ADD: City/County Neighborhood Initiative (CCNI)	\$ -	\$ -	\$ 50,000	\$ 50,000	Critical support for a public health and safety initiative focused on impoverished neighborhoods. Vice Mayor's Amendments to Council President's Budget Proposal

REVENUE

Item #	Dept.	Description	FY 2015 - 16	FY 2016 - 17	One-Time	Totals	Notes	Administrations' Assessment / Validation
1	REV	ADD BACK: Business License Tax (From errata)	\$ 800,000	\$ 800,000	\$ -	\$ 1,600,000	Restores a portion of Administration's errata cut to biz tax revenue (cut was \$2.8 million per year).	Staff cannot validate this revenue projection, it is not substantiated with analysis and rationale for an 8.5% increase over the current year's projections. Council President's proposal includes increasing BLT revenue projections to 7.3% over FY 2014-15 projections. There are approximately 92,000 rental units in Oakland and roughly 65% fall under Costa/Hawkins Rent Control. Of the remaining 35% it is unknown how many are exempt from BLT due to non-profit status. In general, rental units where the landlord/owner is certified as a non-profit are exempt from the City's business license. (OMC 5.04.630). Any additional revenue resulting from the Land Lord Audit may produce more revenue in FY 2015-16, but FY 2016-17 would be lower, because the revenue potential from penalties and interest is one-time and would be exhausted.

2	OPD	REDUCE: OPD overtime	\$ (500,000)	\$ (500,000)		\$ (1,000,000)	Report back on OPD overtime no later than mid-cycle.	OPD overtime budget (\$13.4M) for next year is already reduced by over 20% over the current fiscal year budget (\$16.5M). Attachment E provides a history of OPD overtime in conjunction with the sworn position count. Additionally, the overtime budget has not historically been adjusted for any negotiated COLA amounts, therefore the current budget buys fewer overtime hours than in past years.

They serve an estimated 140 seniors per day, approx. 250 unduplicated. Many of these seniors walk down to the neighboring Lincoln Recreation Center for activities. The Center Director at Lincoln Center has indicated that the need of additional funding to accommodate the increased usage by seniors during the day. We recommend that Recreation Center and Family Bridges work together more closely.

Staff is unclear as to the specific intended allocation of these funds. ADD -- Establish Dept. of Race & Equity beginning December 2015.							This proposal is Sponsored by Council Members Brooks, Kaplan, & Campbell Washington	
Eliminate - Revenue Department - Combining Collections and Compliance into one Unit; Mandatory Garbage Lien and Audit will be a separate stand alone unit							Mayor's Budget page G-22	Due to the increased workload associated with implementation of the new Zero Waste Franchise a single supervisor CANNOT successfully manage both the Mandatory Garbage Services (MGS) program and the Collections program. The reorganization recognizes this and separates these two units, leaving MGS as a standalone and combining Collections and Compliance to ensure success of both of the programs. Eliminating the ability for the Mandatory Garbage unit to be a standalone unit with a 100% dedicated supervisor will seriously impact the City's ability to implement the new billing and reconciliation procedures necessary under the new Zero Waste Franchise, the fiscal processes of which carry a heavy administrative burden. It will also negatively impact customer service and will likely negatively impact employees morale, and strain the City's relationship with the Franchise holders when the City is unable to process reimbursements in a timely manner. Preventing this reorganization will also impair the staff's efforts to improve collections by more rapidly moving delinquent accounts from Compliance to Collections. The longer an account is allowed to age before it is moved to Collections, the less likely the City will realize associated revenue.
