Dena Gunning, Emergency Planning Coordinator, CORE Program

This has been a long and severe fire season, with devastating fires in Yosemite, Mount Diablo and other areas of California. Fortunately, the good work and stewardship of the Wildfire Prevention District has protected Oakland neighborhoods from a devastating fire. We are not out of the fire season yet.

Voters in the Oakland Hills are being asked to vote by mail to renew our Wildfire Prevention District. For more information or to endorse or contribute to this renewal effort, go to
