

Minimum 10'
distance
between house
and
tree
branches

Leave space
between house
and shrubbery or trees

Group plants in clusters

Leave vegetation on
slope to prevent erosion

Leave vegetation canopy over the creek
in order to provide shade coverage

Do not trim lower
branches if they are major
(greater than 4" in diameter)
limbs of the tree

Note: A **Creek Protection Permit** is required for
any work that occurs on a creekside property
