Oakland Homicide Section Establishes Anonymous Tip Email Address

Oakland, CA – The Oakland Police Department recently established an anonymous email “tip line” for residents to use in providing information about homicide cases. In addition to the direct line to contact Oakland homicide investigators (510-238-3821), residents can now provide information via email at Oaklandhomicide@oaklandnet.com. “We know the importance of community involvement when it comes to solving homicides, and recognize that providing a means for people to anonymously provide information is critical to our success” stated Chief Anthony Batts. “This email tip line is just another anonymous option for people to use” said Lt. Brian Medeiros, commander of the Homicide Section. Individuals who use the email tip line may receive a return email thanking them for their assistance, and advising them that their information has been forwarded to a homicide investigator.

The homicide tip email address can also be found on the Oakland Police Department website at oaklandpolice.com.
