

**Property Crime Density**  
**2nd Quarter 2011**

-  Command Area
-  Community Police Beats

**2nd Quarter 2011**  
**Total = 4424**

-  Low
-  Medium
-  High

**1st Quarter 2011**  
**Total = 4607**

-  Low
-  Medium
-  High

File Name: Q14\_2011Qtr2\_to\_2011Qtr1\_Property  
 Note: Violent Crime Includes UCR 13 - 30  
 Crime density calculations only use one crime incident per report to create a density analysis. Counting multiple incidences from the same report would skew the density analysis.  
 Crime reports can have multiple incidences in the same geographic location.  
 Density analysis uses one incident count per unique crime report.  
 The crime density surface represents areas that are within close proximity to reported violent crimes.  
 - the hotter the color the more crimes reported close by
