

BUSINESS RECYCLING DIRECTORY

Business Recycling Tips:

- Sort More = Worth More: The more you sort materials, the more value they have.
- Ask about special services: Most recycling companies provide storage containers and offer on-call service with the possibility of automatic/scheduled collection. Many are flexible about requirements for minimum quantities, especially if you also purchase their document destruction service.
- If drop-off is what you want: See the City of Oakland Buyback/Drop Off Directory.
- Attention Small Businesses: If you do not generate enough recyclables to meet service provider minimums, you may qualify for Oakland's Small Business Recycling Service (see listing below). Also, ask nearby small businesses how they recycle, recyclables may be collected informally.

RECYCLING COLLECTION COMPANIES FOR BUSINESS
