

Peralta St Bikeway Project, Mandela Pkwy to 32nd St

DESCRIPTION

The City of Oakland is installing a new bikeway on Peralta St between Mandela Pkwy and 32nd St, as part of a multi-street paving contract. Construction is anticipated in fall 2014. The paving contract is funded by Oakland's share of Measure B, Alameda County's half-cent transportation sales tax, and Vehicle Registration Fees, both administered by the Alameda County Transportation Commission.

The bikeway project is recommended in the City's Bicycle Master Plan (BMP). The BMP calls for the installation of bikeways throughout Oakland to encourage bicycling as a healthy, non-polluting and affordable transportation option, helping Oakland

achieve City Council-adopted sustainability and livability goals.

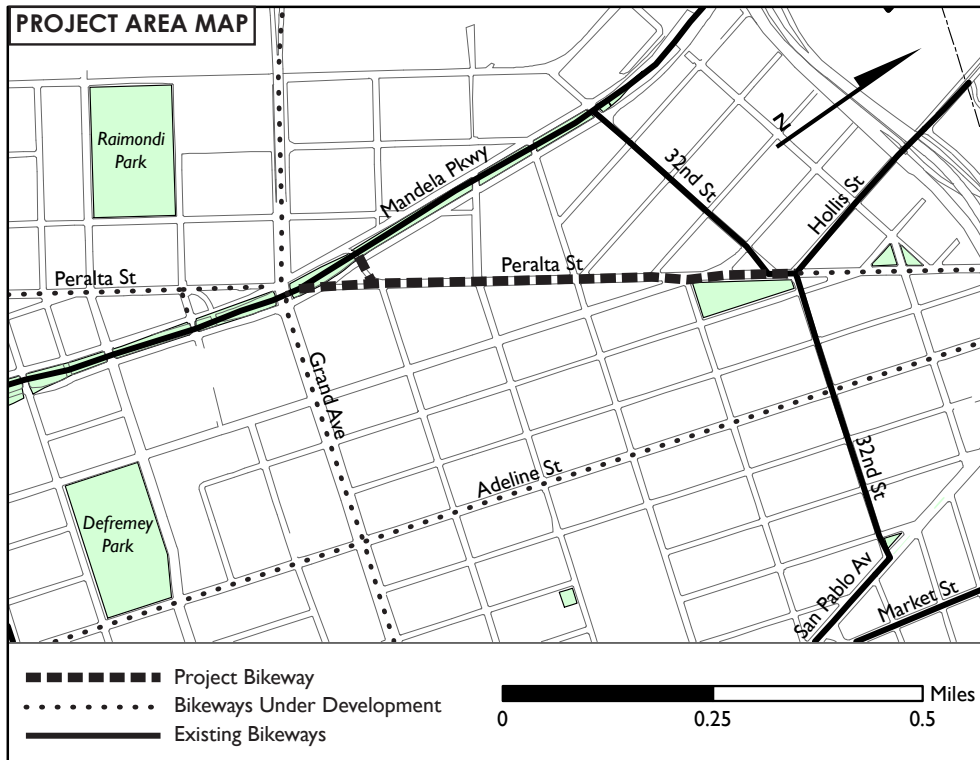

GEOGRAPHIC CONTEXT

The **Peralta St Bikeway Project** will construct a 0.6-mile section of the City's bikeway network. The new bikeway will intersect with existing bikeways on Mandela Pkwy, Hollis St, and 32nd St. A bikeway on the remaining length of Peralta St is currently under development as part of the Martin Luther King Jr Way/Peralta St Streetscape Project, and is scheduled for construction in spring 2015. Additional West Oakland bikeways on Grand Ave and Adeline St are currently in the design phase. (See the Project Area Map, below.)

FEASIBILITY & SAFETY

Bike lanes will be installed on Peralta St by striping the wide travel lanes to standard widths. Bike lanes help motorists and bicyclists to share the road and encourage bicyclists to ride in the street, not on the sidewalk. Narrower travel lanes provide better guidance to motorists and will also discourage speeding. The project will not remove or otherwise affect any parking spaces. See the proposed roadway cross section on the reverse.
