

Park Services Zones and Service Levels

Zones

The Park Services is divided geographically into four zones.

Zone 1 – East Oakland/San Leandro Border to 35th Ave including Arroyo Viejo Park

Zone 2 – Central Oakland – 35th Ave to 14th Ave, including Joaquin Miller Park

Zone 3 – Lake Merritt area including Morcom Rose Garden

Zone 4 – West/North Oakland bordering Emeryville and Berkeley including Raimondi Athletic Field and DeFremery Park

The location list shows the service level of each landscaped area in each zone. There are three levels which determine frequency of service. High use parks and sports fields receive Service Level 1. The list is separated into Parks/Facility Landscapes and Medians.

Service Level 1- These areas receive a high level of frequent, regular routine maintenance. Parks are inspected for normal maintenance needs, trash receptacles are emptied and litter is removed two to three days per week. Plants are maintained frequently so they are kept healthy, well-manicured and do not block walkways or signs. Flower beds are weeded continually to minimize weeds. Shrubs are pruned on an annual basis to prevent overgrowth. Athletic Fields are [mowed](#) at maximum recommended height at least once a week during the playing/growing season. Other turf is mowed on a three week schedule. Walkways, borders, fences and other areas are trimmed at least once a month during the growing season. Fields are fertilized twice a year to ensure adequate health and growth. Irrigation systems are tested on a regular basis for EBMUD and State water mandate drought compliance.

Service Level 2- These areas receive a moderate level of routine maintenance with regular monitoring, and adjustments are made to keep the area “appealing”. Litter is removed one to two times per week. Plants are maintained less frequently than the Level 1 service, but are still kept healthy and manicured. Shrubs are pruned on a 3 year cycle. Turf is mowed to a maximum recommended height at least once every three weeks during the growing season. Walkways, borders, fences and other areas are trimmed at least two times per year. Fields are fertilized at least once per year.

Service Level 3- These areas receive little to no routine maintenance. Litter, glass and debris will be removed from the grounds in response to a service request registered through the [OPW Call Center](#). Turf is mowed at least once every 4 weeks. Irrigation system is repaired and prioritized based on severity of the potential for landscape damage or water loss.
