

CITY OF OAKLAND
PUBLIC WORKS

ADOPT A DRAIN

Leaves and trash in storm drains ...

can clog them and lead to flooding.

*Join hundreds of volunteers across
Oakland and adopt a drain today!*

It doesn't take much to keep a storm drain clear. A little volunteer effort goes a long way in helping Public Works maintain over 15,000 storm drains, to reduce flooding, and prevent pollution of our waterways.

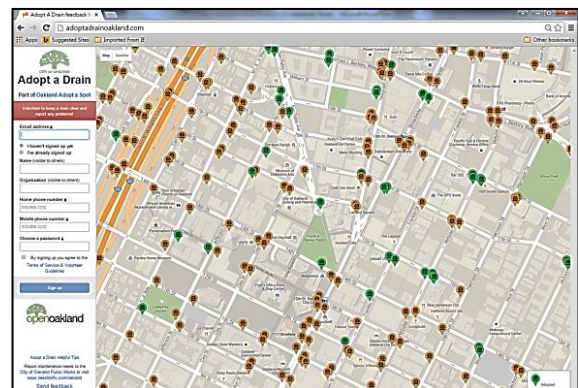

Adopt a Drain volunteers receive the City's storm alert notifications and are eligible to receive City tools and supplies to help keep drains clear of debris.
