CITY OF OAKLAND

MEMORANDUM

DATE: May 10, 2012

TO: The Honorable Civil Service Board
THROUGH: Andrea R. Gourdine, DHRM Director
Secretary to the Board

FROM: Kip Walsh
Recruitment & Classification Mgr

SUBJECT: Approval of Classification Specification for the Classification of Human Resource Analyst, Principal

Based upon a classification review requested by the City Administrator's Office, the Department of Human Resources Management (DHRM) has proposed that a classification specification for the **Human Resource Analyst, Principal** classification be revised. The proposed changes address the need for inclusion of another specialty area: equal employment opportunity (EEO) programs. The classification is broad enough and has been used in the past to fill vacancies related to EEO programs. The formal revision of this classification specification will ensure that it accurately reflects all specialty areas in which incumbents may be required to possess knowledge and expertise along with how it is utilized in different City departments.

The revised classification specification for **Human Resource Analyst, Principal** includes a new task statement and minor changes to several knowledge, skills and abilities statements to specify relevant equal employment duties. No changes were proposed to the minimum qualifications. The proposed classification specification, when adopted, will be used to clearly convey the expectations and requirements for the position via job postings for future vacancies including any necessary selective certifications.

The Confidential Management Employees Association (CMEA) was notified and given the opportunity to review the proposed classification specification. Representatives notified DHRM that the union has no objections. DHRM staff recommends that the Civil Service Board approve the proposed **Human Resource Analyst, Principal** classification specification for the Department of Human Resources Management and City Administrator's Office as part of the maintenance of the City's classification plan.
